News: 08/03/2013 to 15/03/2013

Reminder: Help us improve DG CONNECT's performance as a public service! Deadline 15 March

You have only a few days left to help us in improving our performance as a public service and to have a say in what where we put emphasis in our future activities. The survey asks two sets of questions and should take only few minutes. You can answer just the 7 short general questions at the beginning, or go on to a more detailed set of 10 or less questions about facts & figures related to activities of the Digital social platforms Unit, namely • 08021 Digital social platforms: active aging and independent living; • 08022 Digital social platforms: web-accessibility; • 08023 Digital social platforms for innovation and growth. We thank you in advance for the effort and your contribution that will help us to check the basis on which we set out our priority actions in 2013 and beyond both in policy areas as well as research and innovation actions to be supported by Horizon 2020.
