INNOVA MEASURE IV online Final Workshop

The impact of innovation on firms and regions

The INNOVA MEASURE IV research project, funded by the European Commission under EU's Horizon 2020 Framework Programme (grant agreement no. 857088), looks at the growth and performance of innovative enterprises, the nature and consequences of knowledge-intensive FDI and composite indicators in research and innovation.

This two-day workshop aims to provide a summary of the main findings of the project on two of the domains studied: the impact of innovative private investments, and the impact of developments in artificial intelligence and digitalization.

Policy implications will be discussed with policy makers and academics expert in these domains.

Private investments and regional cohesion and innovative performance (28 September 2020, 9.00-12.00)

9.00-9.30	Access to the WebEx platform and familiarization with the online tool
