Education and Training

ET 2020 Working Groups are informal Commission expert groups at the service of the ET 2020 framework. The primary focus of the Working Group is to benefit the Member States in their work of furthering policy development through mutual learning and the identification of good practices. They are a forum for discussions, providing high-level input from a wide range of sources and stakeholders, and as such are also open for input by European social partners and European-level stakeholder/civil society associations.
