Ministry of Economic Affairs

Implementing the Blue Growth Strategy: “The dutch approach to multi-use of off-shore platforms”

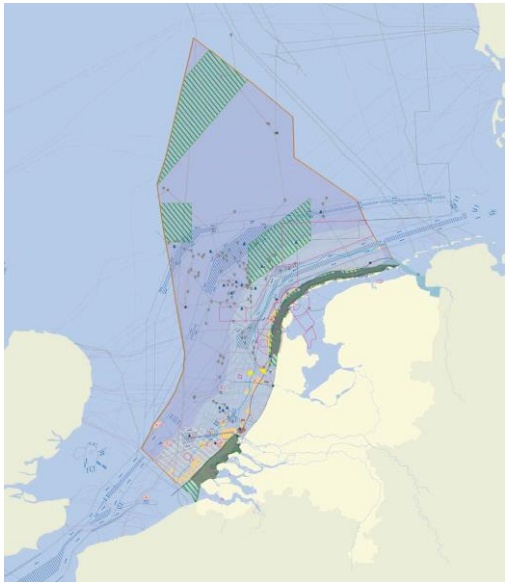
Dr. Ir. M.H. Mossink, Deputy director
European Agricultural, Fisheries and Aquaculture policy and food security Department. The Netherlands

Brussels 24/5/2016

Background

- Northsea: Heavy traffic More activities: Oil/Gas, Windenergy, MPA's

- Space is 'limited'



- Increasing Seafood production is needed to feed the world in the future

Challenges

- Ambition: Smart use of avaiable space: “Multi use”

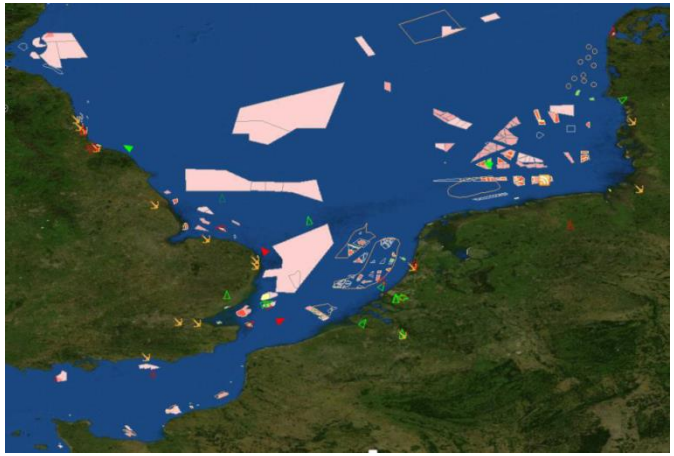
- Policy:
  - Dutch National Waterplan 2016-2021
  - EU: Blue Growth opportunities for marine and maritime sustainable growth (2012)

Offers opportunities !

Key issues: Innovation & Cooperation

- **Innovation**: New production locations in the North Sea

- **Cooperation**: Goverment, Fisherman, Offshore industry, Research institutes, NGO's and with other countries
- Europa 69 offshore/multi use projects



Multi-use: Inspiring examples Fisheries and aquaculture (1)

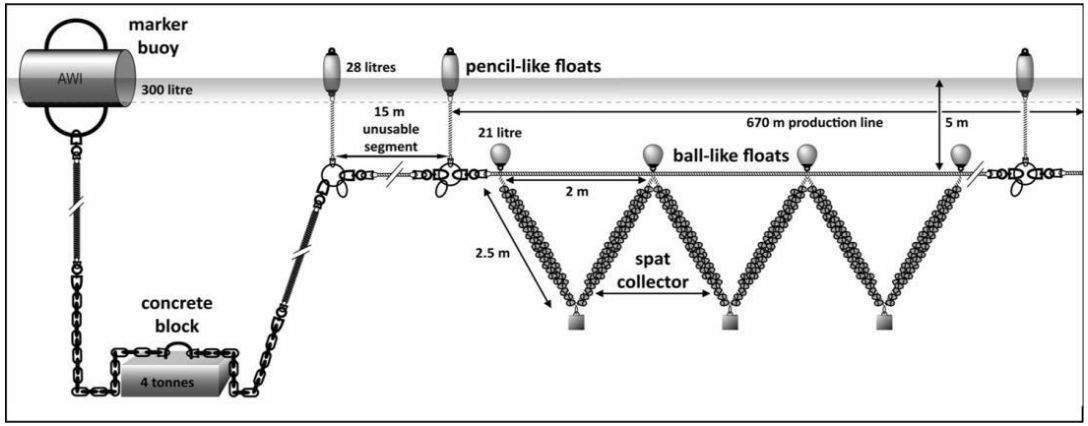
- Fisheries: Searanching project (turbot)

EKOFISH GROUP
respect nature ~ finest fish

van hall larenstein
university of applied sciences

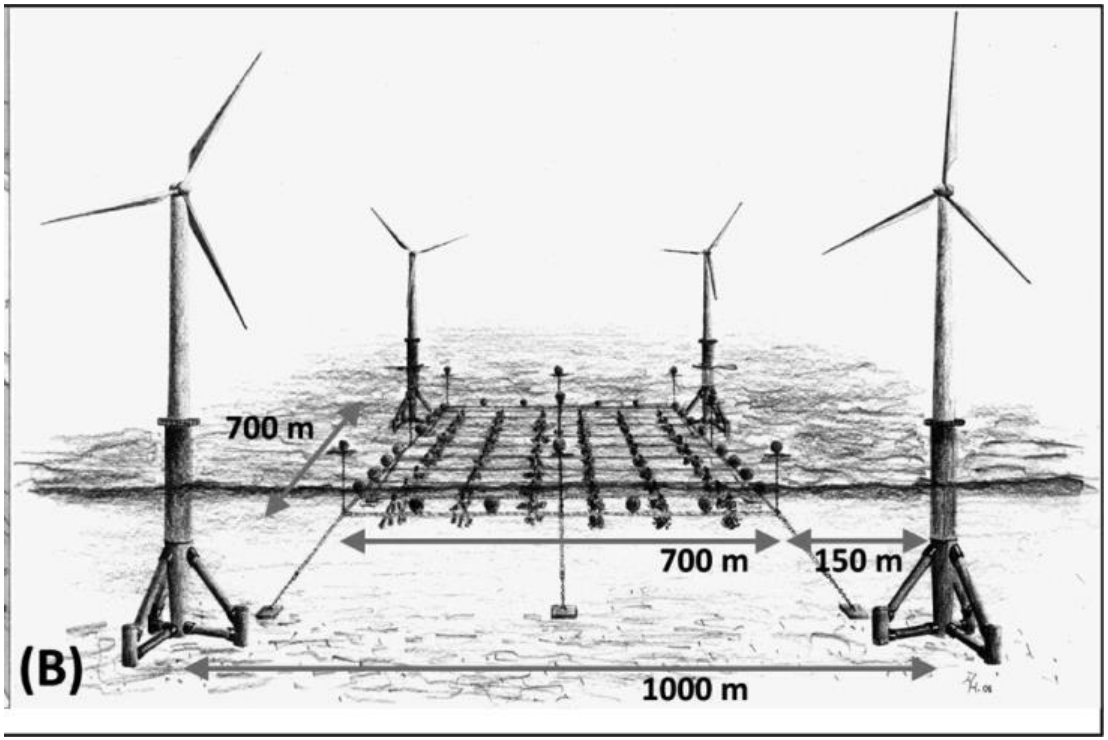
Multi-use: Inspiring examples Fisheries and aquaculture (2)

- Aquaculture: AQUAVLAN and IMARES
  (Mussel spat collectors: sub-merged systems)



Multi-use: Inspiring examples Fisheries and aquaculture (3)

Seaweed: AQUAVLAN and Stichting Noordzeeboerderij



Multi–use: Nature development

- Stichting de Noordzee Bureau Waardenburg

Multi use: Wave energy (Slow Mill)

Follow-up:

- In 2017: starting pilots projects
