European Commission

THE EUROPEAN INVESTMENT PROJECT PORTAL (EIPP)

Michael Feith
European Commission
DG ECFIN

Brussels, 8 June 2016

AGENDA

1. What is EIPP?
2. EIPP State of Play
3. Project submission and screening

EIPP under Pillar II of the Investment Plan for Europe

1. MOBILISING FINANCE FOR INVESTMENT

- Boost investment in strategic projects and access to finance via the European Fund for Strategic Investments (EFSI) within EIB/EIF
- Cooperation with the EIB and the National Promotional Banks

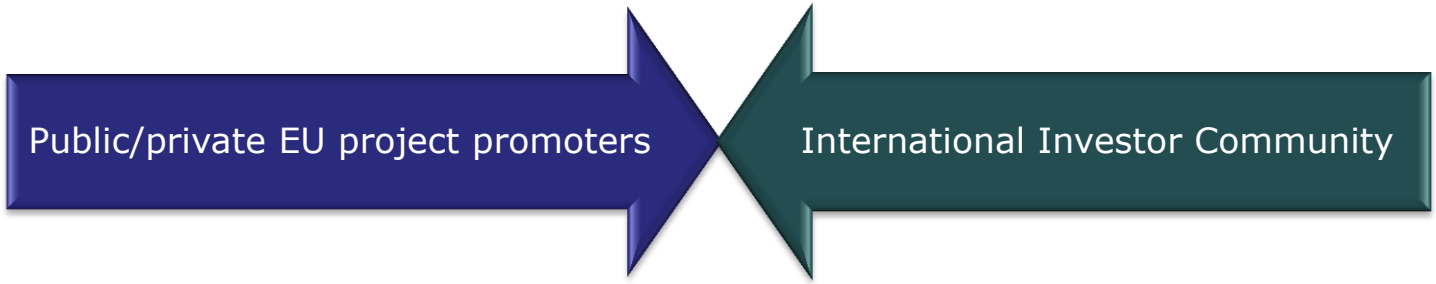
2. MAKING FINANCE REACH THE REAL ECONOMY

- European Investment Project Portal: a bridge between European project promoters and potential investors *worldwide*
- European Investment Advisory Hub

3. IMPROVED INVESTMENT ENVIRONMENT

- Predictability and quality of regulation
- Removing non-financial, regulatory barriers in key sectors within EU Single Market
- Structural reforms at national level

European Investment Project Portal (EIPP)
ec.europa.eu/eipp



- **Matching investment opportunities proposed by project promoters with investors' interest**
- **Project promoters may submit projects (in 24 languages) on the Commission's website www.ec.europa.eu/eipp**
- **Publication of a project is free for public entities.**
- **EIPP went live on 1 June 2016**
- **Project promoters could already submit projects before**
- **Fully-fledged business portal at next stage**

INVESTMENT PROJECT EIPP-20160041

Interconnector between Estonia and Finland (BalticConnector)

PROJECT DESCRIPTION

Gas transmission system interconnection between Estonia and Finland comprising offshore and onshore pipelines and 2 compressor stations in both member states.

Technical descriptionA) Onshore pipeline Inkoo-Siuntio, 22 km DN500 (80 bar), in Finland. Metering and compressor station in Finland B) Offshore pipeline from Inkoo (FI) to Kersalu (EST), 81 (78) km, bidirectional DN500 (80 bar) subsea pipeline with network injection capacity 7.2 million m3/day, 0.3 million m3/hC) Onshore Pipeline Kiili – Kersalu (Paldiski), 47 (54) km DN700 (54 bar) in Estonia. Metering and compressor station in Estonia. City-Gate in Kiili.

COUNTRY, REGION
Finland [Helsinki-Uusimaa]

ECONOMIC RATIONALE

Enhance the regional security of supply: The Balticconnector gas interconnector physically connects the Finnish and the Baltic Gas infrastructures. In addition, Balticconnector as a part of regional gas investment program gives the Finnish gas market access to the Latvian underground gas storage and Klaipeda LNG terminal and gas from central Europe thru the GIPL. Integrate the regional markets: Balticconnector has a role in the process to connect the Finnish and Baltic gas markets. In order to achieve these objectives, also other gas grid enhancement projects in the region are required (Est-Lat Enhancement).Ending energy isolation: Balticconnector will physically integrate the Finnish and Baltic gas grids and bring an end to the energy island situation in Finland.Increase competition: Balticconnector has a

Sector Choice

I. Knowledge & Digital Economy

1. *Research, Development & Innovation*
2. *ICT Infrastructures, including Broadband*
3. *Other Digital, incl. Content & Services*

II. Energy Union

4. *Renewable Energy Production*
5. *Conventional Energy Production*
6. *Energy Efficiency*
7. *Electricity Infrastructure*
8. *Gas Infrastructure*
9. *Fuel Extraction and Refining*
10. *Energy R&D*

III. Transport

11. *Trans European Network*
12. *Multimodal Nodes*
13. *Urban Mobility Projects*

... III. Transport (continued)

14. *New Technologies and Transport Greening*
15. *Vehicles and Transport Systems*

IV. Social Infrastructure & Other

16. *Human Capital, Education & Training*
17. *Health*
18. *Cultural & Creative Industries*
19. *Tourism*
20. *Social Infrastructure, Social and Solidarity Economy*

V. Resources, Agriculture & Environment

21. *Natural Resources*
22. *Agriculture & Rural Development, Forestry, Bio-Economy*
23. *Resource Efficiency, Environment Protection, Blue Economy*
24. *Climate Change*

25. (VI) Industry for SMEs & Mid-Caps

European Commission

Project screening

- The European Commission performs a screening of projects based on project admission criteria
- Full responsibility for EIPP projects borne by the Project Promoter (required to accept Terms & Conditions)
- Multi-languages (all EU official languages)
- Promoters submit projects directly to EIPP (no intermediation necessary by Member States)
- Member States representatives will be sent information on projects within their territory; Member States have the option to review and check EIPP projects
- Projects also reviewed by Commission Representation in the Member State concerned

European Commission
