PRIZE APPLICATION TEMPLATE
Administrative Form (Part B)

Online security - Seamless personal authentication

(*authentication for all*)

Version 1.3

7 March 2018

Disclaimer:

This document is aimed at informing potential contestants for the Horizon Prize for Seamless authentication for all. It serves only as an example. The actual web forms and templates, provided in the online submission system under the Participant Portal, might differ from this example. Applications must be prepared and submitted via the online submission system

PRIZE APPLICATION TEMPLATE

Administrative Form (Part B)

Example, not to complete

Please follow the structure of this template when preparing your application. It has been designed to ensure that the important aspects of your work are presented in a way that will enable the experts to make an effective assessment against the evaluation criteria.

Page limits: Part B should not be longer than 100 pages (excluding annexes and appendices) If your application is positively evaluated, you might be also asked to provide additional documentation in a hearing. Data sets and other clarifications that can be used when quantifying the results of the suggested solutions in terms of key performance metrics, as well as the demonstrated achievements, should be provided in the annexes or in the appendices.

The font allowed is Times New Roman and the minimum font size allowed is 10 points. The page size is A4, and all margins (top, bottom, left, right) should be at least 15 mm (not including any footers or headers).

If you attempt to upload an application longer than the specified limits above, you will receive an automatic warning, and will be advised to shorten and re-upload the application. After submission, any excess pages will be overprinted with a 'watermark', indicating to evaluators that these pages must be disregarded.

Please respect the page limit and do not take it as a target either! It is in your interest to keep your text as concise as possible, since experts rarely view unnecessarily long applications in a positive light.

Table of Contents

1. ABSTRACT

1. ABSTRACT

2. INTRODUCTION

Concept and approach

Describe and explain the overall concept underpinning the proposed solution. Describe main ideas, models or assumptions involved. Identify any trans-disciplinary considerations.

Example, not to complete

3. DETAILED DESCRIPTION OF THE PROPOSED SOLUTION

Describe the proposed solution in detail specifically addressing each of the Award Criteria set out in the Rules of Contest (see also below).

The prize will be awarded, after closure of the contest, to the application that in the opinion of the expert panel demonstrates a solution that best addresses the following award criteria, as presented in the Rules of Contest.

Note that the 5 best applications will be invited as finalists for a hearing with the jury, where they will have to demonstrate their solution on a prototype running in an operational environment.

History of changes

Version	Date	Change
1.0	07.08.2017	▪ Initial version
1.1	27.09.2017	▪ First version published in the Participant Portal.
1.2	24.01.2018	▪ The mention to the limit of 40 pages was removed, as it was inconsistent with the Rules of Contest. ▪ Improvement of the layout of section 1, that now has one dedicated text box for each award criterion.
1.3	07.03.2018	▪ There is no particular condition for Coordinators in this Horizon Prize, and the relevant H2020 rules apply. A related inconsistency in the previous version of the template has been fixed.
