Policy/Legislation: 26/03/2013

Proposal for a Regulation of the European Parliament and of the Council on measures to reduce the cost of deploying high-speed electronic communications networks

The objectives of the proposed Regulation are to reduce the cost and enhance the efficiency of deploying high-speed electronic communications infrastructure by scaling up existing best practices across the EU, thus improving the conditions for the establishment and functioning of the internal market in an area supporting the development of virtually all sectors of the economy.
