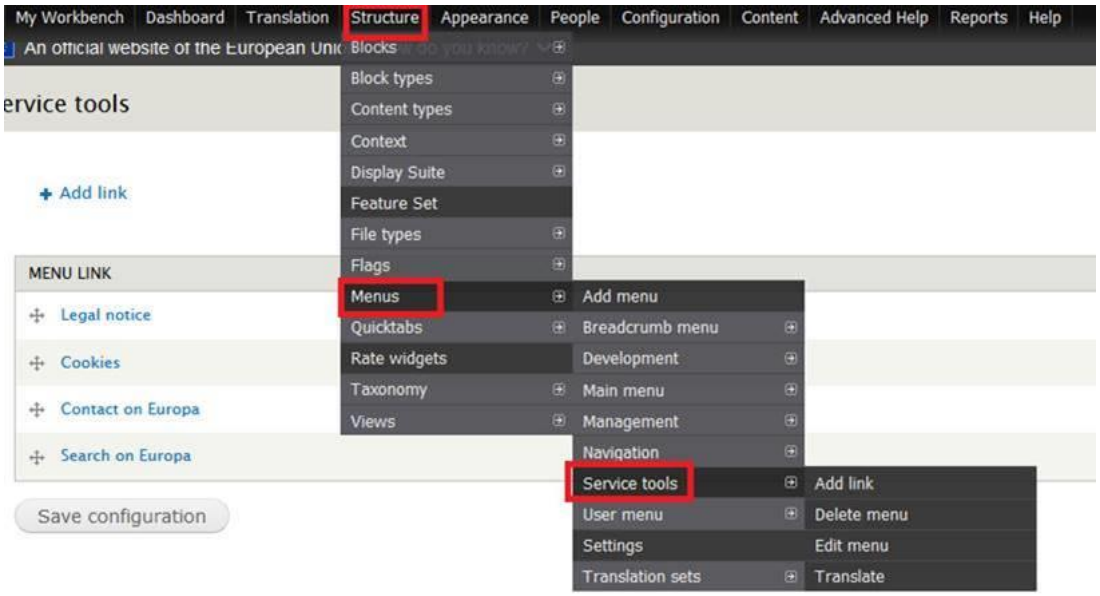
How to add link to Brexit content disclaimer in footer
Instructions for standardised sites

On all the Europa Web Publishing Platform (EWPP) sites, the link to the footer can be added using the following steps.

1. Go to **Admin > Structure > Menu > Service Tools**

Depending on the configuration of your website, the name of the menu may differ.

- If the menu 'Service Tools' does not exist on your website, or is not the correct one, you can check if the menu "Nexteuropa service links" is the one you need.
- On sites with a customised footer, it is the responsibility of the site owner to identify the correct footer and update it accordingly.



2. Click 'Add link'
3. In the field '**Menu link title**' add "*Brexit Content Disclaimer*"
4. In the field '**Path**' add the final URL
    a. For sites on the EC web presence, the URL will be https://ec.europa.eu/info/brexit-content-disclaimer
    b. For sites on the EU web presence, the URL will be https://europa.eu/european-union/brexit-content-disclaimer
5. Save the changes!

Translations: for sites in other EU languages, please consult the translations in the Brexit Content Disclaimer section on this wiki.

Access rights to the wiki: Please note, access rights have been granted to 1-2 designated coordinators responsible for Brexit-related online edits in each DG/service. We therefore remind you to contact them in the first instance in order for them to share the relevant information with you.
