**ON SUBMISSION OF INFORMATION ON MARKET SURVEILLANCE  
PROGRAMMES**

This is to inform you that the Communications Regulatory Authority of the Republic of Lithuania conducts market surveillance of products in accordance with the Technical Regulation on Radio Equipment and Telecommunications Terminal Equipment approved by Order No 138 of 14 October 2002 of the Director of the Communications Regulatory Authority under the Government of the Republic of Lithuania (*Official Gazette*, 2002, No 104-4683; 2003, No 88-4022) and the Technical Regulation on Electromagnetic Compatibility approved by Order No 1V-1328 of 15 December 2006 of the Director of the Communications Regulatory Authority (*Official Gazette*, 2006, No 138-5286; 2008, No 5-250). In accordance with these regulations, equipment inspection plans are drafted every year providing how many units of equipment will be inspected on the market and how many will be taken from the market for laboratory testing. Where non-compliance with the requirements of the regulations is identified, this information is shared among the Member States and the European Commission is notified.

The Communications Regulatory Authority participates in targeted market surveillance campaigns in accordance with the Radio and Telecommunications Terminal Equipment Directive and the Electromagnetic Compatibility Directive.
