

CAP@50 Communication networking event: 9 - 11 December 2012

The CAP@50 campaign will come to an end in Brussels with the Communication networking event on 9-11 December, a yearly *rendez-vous* of agricultural journalists, farmers' associations and other relevant EU NGOs, other EU institutions and communication experts from the Member States' Agricultural Ministries and the European Rural Development Network. The event will take place in parallel with the last stop in the [CAP@50 expo roadshow](#), Brussels, after having travelled to 20 Member States.

The event will create a platform to exchange best practices in terms of CAP communication, projects targeting stakeholders, the general public and/or projects using highly innovative communication methods. On 10 December, the participants will vote in an [Award Ceremony](#) to choose the best CAP communication projects, from a total of 12 nominated projects.
