Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

laying down certain transitional provisions on support for rural development by the European Agricultural Fund for Rural Development (EAFRD) and amending Regulation (EU) No [...] [RD] as regards resources and their distribution in respect of the year 2014 and amending Council Regulation (EC) No 73/2009 and Regulations (EU) No [...] [DP], (EU) No [...] [HZ] and (EU) No [...] [sCMO] as regards their application in the year 2014

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

The European Commission is working intensively to reach an agreement between EU institutions on the reform of the CAP which will permit the reformed CAP to enter into force on 1st of January 2014.

With the pursued objective of reaching an agreement between the Institutions on the MFF and a political agreement on the Common Agricultural Policy (CAP) reform before the summer 2013, the legal bases for the reformed CAP are foreseen to enter into force on 1st of January 2014.

However, transitional rules are needed to define technical arrangements which will permit a smooth adaptation to the new conditions, while at the same time ensuring continuity of the different forms of support under the CAP.

As regards direct payments, sufficient time must be available to allow Member States, and especially their paying agencies, to be well prepared and to inform in details farmers on new rules enough in advance. Therefore, the claims for 2014 will be treated under transitional rules.

As for the second pillar, the definition of transitional rules between the two programming periods represents standard practice. Transitional rules are generally needed to bridge the two consecutive programming periods, as already experienced at the beginning of the current programming period. However, for rural development, there is this time also a need for some specific transitional arrangements, notably to deal with the implications which the delay of the new direct payment regime has for certain rural development measures especially as regards the baseline for agri-environment and climate measures and the application of the cross-compliance rules. Transitional arrangements are also needed to ensure that MS can keep on undertaking new commitments for area and animal-related measures in 2014 even if the resources for the current period have been exhausted. These new commitments, as well as corresponding on-going commitments shall be eligible from the new financial envelopes of the rural development programmes of the next programming period.

For the horizontal regulation, the need for transitional measures is limited to the FAS, IACS and cross-compliance, due to their link to the direct payments.

In light of the above, specific transitional rules need to be adopted by the Council and the European Parliament before the end of the year, amending the current CAP basic acts where necessary.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

In relation to the transitional rules, there was no need for consultation of interested parties or an impact assessment since these adjustments follow from the state of play of the discussions between the Institutions regarding the MFF and the CAP reform.

3. LEGAL ELEMENTS OF THE PROPOSAL

For direct payments, the transitional measures first provide for the prolongation of the main elements of the existing schemes – SPS, SAPS, coupled regimes, also those granted as specific support under Article 68 – for claim year 2014. Secondly, they incorporate, subject to agreement of the European Parliament the financial impacts of the European Council

conclusions of 8 February; including the start of the external convergence process. The introduction of transitional measures implies that certain of the dates included in the Commission proposal for direct support after 2013 will have to be adapted accordingly in order to ensure consistency with this draft Regulation.

For rural development, transitional rules will have to be established to define how the current measures would be carried over to the next programming period, including their financing from the new financial envelope. In addition, these rules define which baseline and cross-compliance rules should apply in 2014. Finally, these rules establish transitional provisions for Croatia.

The transitional measures also include provisions regarding the possibility for Member States to transfer funds between pillars. Such flexibility mechanism is an element of the CAP reform to be decided by ordinary legislative procedure. Both the European Parliament on 13 March 2013 and the Agriculture Council on 19 March 2013 took position on this issue. Whilst the Council took over the European Council conclusions on the MFF, the EP increased the percentages proposed by the Commission to 15% for transfer to the second pillar and 10% for transfers to the first pillar, the latter being allowed only to those MS with an average payment below 90% of the EU average. To indicate that the present proposal is without prejudice to the final decision that will be taken by the legislator on this specific element, the parts of the Article included in the transitional measures that differ from Article 14 of the Commission proposal for direct support after 2013 have been put within square brackets.

4. BUDGETARY IMPLICATION

This draft Regulation only implements the Commission proposals on the MFF and the CAP reform for financial year 2015 taking into account the European Council conclusions of 8 February 2013. It incorporates the external convergence of the direct payments, the flexibility between the CAP pillars and the co-financing rate for rural development. The new elements arising from the European Council conclusions are put within square brackets pending the final agreement on the MFF.

For direct payments, the European Council conclusions of 8 February 2013 correspond, compared to the Commission proposal, to a reduction of EUR 830 million (in current prices) in financial year 2015 (corresponding to claim year 2014 for direct payments). The distribution of direct payments ceilings among Member States takes account of the external convergence as it should start from financial year 2015. Compared to the Commission proposal, the European Council conclusions modify the timeframe of the convergence (6 years) and add a minimum of 196 EUR/ha to be reached by financial year 2020.

Compared to the Commission proposal, the flexibility between pillars is increased according to the European Council conclusions. It will be budgetary neutral as exactly the same amounts reduced from one Fund (EAGF or EAFRD) will be made available to the other Fund (EAGF or EAFRD).

As regards rural development, this draft Regulation aims to ensure the continuity of a number of measures involving multiannual commitments. Those provisions have no financial impact as the rural development allocation remains unchanged. However, the distribution over time of the payments might be slightly different than otherwise but it cannot be quantified at this stage.

Details on the financial impact of this proposal are set out in the financial statement accompanying the proposals.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

laying down certain transitional provisions on support for rural development by the European Agricultural Fund for Rural Development (EAFRD) and amending Regulation (EU) No [RD] as regards resources and their distribution in respect of the year 2014 and amending Council Regulation (EC) No 73/2009 and Regulations (EU) No [DP], (EU) No [HZ] and (EU) No [sCMO] as regards their application in the year 2014

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Having regard to the opinion of the Committee of the Regions²,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) Regulation (EU) No [...] [RD] of the European Parliament and of the Council of... on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)³, which is to apply from 1 January 2014, lays down rules governing Union support for rural development and repeals Council Regulation (EC) No 1698/2005 of 20 September 2005 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)⁴, without prejudice to the continued application of the Regulations implementing that Regulation until they are repealed by the Commission. To facilitate the transition from existing support schemes under Regulation (EC) No 1698/2005 to the new legal framework which covers the programming period starting on 1 January 2014 ("the new programming period"), transitional rules should be adopted to avoid any difficulties or delays in the implementation of rural development support, which may result from the time of adoption of the new rural development programs. For that reason it should be provided that Member States may continue to undertake legal commitments under their existing rural development programs in 2014 for certain measures and that the resulting expenditure shall be eligible for support in the new programming period.
- (2) In view of the substantial change in the method for the delimitation of areas facing significant natural constraints proposed for the forthcoming programming period, it

¹ OJ C , , p. .

² OJ C , , p. .

³ OJ L [...], [...], p. [...].

⁴ OJ L 277, 21.10.2005, p. 1.

should be provided that for new legal commitments undertaken in 2014 the obligation for the farmer to continue farming in the area for 5 years does not apply.

- (3) To ensure legal certainty in the transition it should be provided that expenditure undertaken pursuant to Regulation (EC) No 1698/2005 under area and animal related measures should be eligible for an EAFRD contribution in the new programming period when there are still payments to be made. In the interest of sound financial management and effective programme implementation, such expenditure should be clearly identified in the rural development programmes and throughout the management and control systems of the Member States. In order to avoid unnecessary complexity in the financial management of rural development programmes in the new programming period, it should be provided that the co-financing rates of the new programming period shall apply to transitional expenditure.
- (4) Regulation (EU) No [...] of the European Parliament and of Council of... establishing rules for direct payments to farmers under support schemes within the framework of the common agricultural policy [DP]⁵ sets up new support schemes and is to apply from 1 January 2014. That date of application would not allow that the administrative and practical arrangements needed for the lodging of applications for 2014 are set up in time. For that reason, the application of the new direct payments regime needs to be postponed by one year. Council Regulation (EC) No 73/2009 of 19 January 2009 establishing common rules for direct support schemes for farmers under the common agricultural policy and establishing certain support schemes for farmers⁶ should therefore continue to form the basis on which to grant income support for farmers in calendar year 2014, while taking due account of [Regulation laying down the Multiannual Financial Framework]⁷.
- (5) Given that Regulation (EC) No 73/2009 is to continue to apply in 2014 and in order to ensure consistency in the implementation of the provisions on cross-compliance and the respect of the standards required by certain measures, it should be provided that the relevant provisions that apply in the 2007-2013 programming period continue to apply until the new legislative framework becomes applicable. For the same reasons, it should be provided that the provisions relating to complementary national direct payments for Croatia that apply in 2013 continue to apply.
- (6) Pursuant to Article 76 of Regulation (EU) No [...] [HZ] of the European Parliament and the Council⁸ Member States will be able to pay advances for the direct payments. Under Regulation (EC) No 73/2009 such possibility needs to be authorised by the Commission. Experience in the implementation of direct support schemes shows that it is appropriate to allow for farmers to receive advance payments. As regard applications made in 2014, those advances should be limited to up to 50% of the support schemes listed in Annex I to Regulation (EC) No 73/2009 and to up to 80% of the beef and veal payment.
- (7) In order to respect [Regulation laying down the Multiannual Financial Framework], and in particular the levelling of the amount available for granting direct support to farmers as well as the external convergence mechanism, it is necessary to modify the national ceilings fixed in Annex VIII to Regulation (EC) No 73/2009 for 2014. The

modification of the national ceilings will inevitably have an impact on the amounts that individual farmers may receive as direct payments in 2014. The way in which this modification will impact on the value of payment entitlements and the level of other direct payments should therefore be laid down.

- (8) Experience gained in the financial implementation of Regulation (EC) No 73/2009 showed that there was a need for clarifying certain provisions, in particular as regards the elements covered by the figures set out in Annex VIII to that Regulation and the link with the possibility given to Member States to use the funds unspent in the single payment scheme to finance the specific support. As Article 40 of Regulation (EC) No 73/2009 has to be modified in order to make clear how Member States will have to take into account the variations in the national ceilings, it is appropriate to take this as an opportunity to clarify the wording of the relevant provisions.
- (9) Under Regulation (EC) No 73/2009, Member States had the possibility to decide to use a certain percentage of their national ceiling for specific support for their farmers as well as to review a previous decision by deciding to modify, or put an end to, such support. It is appropriate to provide for an additional review of those decisions with effect from calendar year 2014. At the same time, the special conditions under which the specific support is paid in some Member States pursuant Article 69(5) of Regulation (EC) No 73/2009, which are due to expire in 2013, need to be extended for one more year, in order to avoid disruption in the degree of support.
- (10) The single area payment scheme laid down in Regulation (EC) No 73/2009 has a transitional nature and was due to end on 31 December 2013. Since the new basic payment scheme will replace the single payment scheme only as from 1 January 2015, an extension of the single area payment scheme for the year 2014 is necessary in order to prevent new Member States from having to apply the single payment scheme for only one year.
- (11) With a view to allowing Member States to address the needs of their agricultural sectors or to strengthen their rural development policy in a more flexible way, they should be given the possibility to transfer funds from their direct payments ceilings to their support assigned for rural development and from the support assigned for rural development to their direct payments ceilings. At the same time, Member States where the level of direct support remains lower than 90 % of the Union average level of support should be given the possibility to transfer additional funds from their support assigned for rural development to their direct payments ceilings. Such choices should be made, within certain limits, once and for the whole period of financial years 2015-2020.
- (12) According to Article 22 of Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy⁹, Council Directive 80/68/EEC of 17 December 1979 on the protection of groundwater against pollution caused by certain dangerous substances¹⁰ is repealed from 22 December 2013. In order to maintain the rules under cross compliance related to protection of groundwater, it is appropriate to adjust the scope of cross-compliance and to define a standard of good agricultural and environmental condition encompassing the requirements of Articles 4 and 5 of Directive 80/68/EEC.

⁹ OJ L 327, 22.12.2000, p. 1.

¹⁰ OJ L 20, 26.1.1980, p. 43.

- (13) Regulation (EU) No [...] [sCMO] of the European Parliament and of the Council¹¹ provides for the integration of the support for silkworm rearing into the direct support regime and therefore its removal from Regulation (EU) No [...] [sCMO]. In view of the delayed application of the new direct support regime, it is appropriate to provide for the continuation of the aids in the silkworm sector for one more year.
- (14) Moreover, the provisions on the farm advisory system, the integrated administration and control system and cross compliance laid down in Title III, Chapter II of Title V and Title VI, respectively, of Regulation (EU) No [...] [HZ] of the European Parliament and of the Council on the financing, management and monitoring of the common agricultural policy¹² should apply from 1 January 2015.
- (15) Following the insertion of Article 136a into Regulation (EC) No 73/2009 and the replacement of Article 14 of Regulation (EU) No [DP], which applies from 1 January 2015, references to Article 14 of Regulation (EU) No [DP] in Regulation (EU) No [...] [RD] need to be amended.
- (16) Regulations (EC) No 73/2009, (EU) No [...] [DP], (EU) No [...] [HZ], (EU) No [...] [sCMO] and (EU) No [...] [RD] should therefore be amended accordingly.
- (17) This Regulation should apply from 1 January 2014. In order to avoid any overlap between the rules on flexibility between pillars laid down in Regulation (EC) No 73/2009 and Regulation (EU) No [DP] as amended by this Regulation, it is appropriate to provide that that particular amendment to Regulation (EC) No 73/2009 is to apply from the date of entry into force of this Regulation and that the amendments of Regulation (EU) No [DP], including its deferred application from 1 January 2015, are to apply from the date of entry into force of Regulation (EU) No [DP]. Furthermore, the amendment of Annexes II and III to Regulation (EC) No 73/2009 should apply from 22 December 2013,

HAVE ADOPTED THIS REGULATION:

A. Measures relating to list I

Member States:

- shall prohibit all direct discharge of substances in list I,
- shall subject to prior investigation any disposal or tipping for the purpose of disposal of these substances which might lead to indirect discharge. In the light of that investigation, Member States shall prohibit such activity or shall grant authorisation provided that all the technical precautions necessary to prevent such discharge are observed,
- shall take all appropriate measures they deem necessary to prevent any indirect discharge of substances in list I due to activities on or in the ground other than those mentioned in the second indent.

However, should prior investigation reveal that the groundwater into which the discharge of substances in list I is envisaged is permanently unsuitable for other uses, especially domestic or agricultural, the Member

States may authorise the discharge of these substances provided that their presence does not impede exploitation of ground resources.

These authorisations may be granted only if all technical precautions have been taken to ensure that these substances cannot reach other aquatic systems or harm other ecosystems.

Member States may, after prior investigation, authorise discharges due to re-injection into the same aquifer of water used for geothermal purposes, water pumped out of mines and quarries or water pumped out for civil engineering works.

B. Measures relating to list II

Member States shall make subject to prior investigation:

- all direct discharge of substances in list II, so as to limit such discharges,
- the disposal or tipping for the purpose of disposal of these substances which might lead to indirect discharge.

In the light of that investigation, Member States may grant an authorisation, provided that all the technical precautions for preventing groundwater pollution by these substances are observed.

Furthermore, Member States shall take the appropriate measures they deem necessary to limit all indirect discharge of substances in list II, due to activities on or in the ground other than those mentioned in the first paragraph.

 19. Tellurium
 20. Silver.
2. Biocides and their derivatives not appearing in list I.
3. Substances which have a deleterious effect on the taste and/or odour of groundwater, and compounds liable to cause the formation of such substances in such water and to render it unfit for human consumption.
4. Toxic or persistent organic compounds of silicon, and substances which may cause the formation of such compounds in water, excluding those which are biologically harmless or are rapidly converted in water into harmless substances.
5. Inorganic compounds of phosphorus and elemental phosphorus.
6. Fluorides.
7. Ammonia and nitrites
- (*) Where certain substances in list II are carcinogenic, mutagenic or teratogenic, they are included in category 4 of this list."

OBSERVATIONS:

This financial statement is a complement to the financial statement of the CAP reform proposals (COM(2012)551, COM(2012)552, COM(2012)553) and should be read together with it.
This draft regulation aims to prolong some elements of the existing schemes, incorporating the effect of the

Multiannual Financial Framework (MFF) agreement on external convergence of the direct payments, flexibility between the CAP pillars and the co-financing rate for rural development. There is no financial consequence as such since this draft Regulation only implements the Commission proposals on the MFF and the CAP reform taking into account the European Council conclusions of 8 February 2013. The new elements arising from the European Council conclusions of 8 February 2013 are put within square brackets pending the final agreement on the MFF.

As regards direct payments, external convergence and flexibility between pillars are applicable as of financial year 2015 (corresponding to claim year 2014 for direct payments). Compared to the Commission proposal and its financial statement, the European Council conclusions of 8 February 2013 correspond to a reduction of EUR 830 million (in current prices) for direct payments in claim year 2014 (EUR 5 million for the crop specific payment for cotton and EUR 825 million for Annex VIII).

Concerning the flexibility between pillars, it is not possible to assess the financial impact yet as Member States will have to notify their transfers to the Commission later this year. In any case, the flexibility will be budgetary neutral as exactly the same amounts reduced from one Fund (EAGF or EAFRD) will be made available to the other Fund (EAGF or EAFRD).

As regards rural development, this draft Regulation aims to ensure the continuity of a number of measures involving multiannual commitments. Also for those measures, the draft Regulation intends that, for commitments undertaken during 2007-2013, the corresponding expenditure can be eligible after 2015 (if there are payments to be made) under the new programming period, or before when the current financial allocation has been exhausted. Those provisions have no financial impact as the rural development allocation remains unchanged. However, the distribution over time of the payments might be slightly different than otherwise but it cannot be quantified at this stage.
