

CONFERENCE

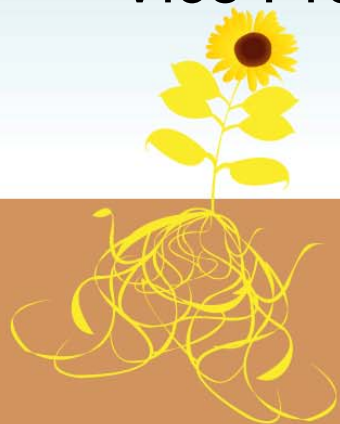

**A simple CAP for Europe**  
A challenge for all

BRUSSELS, 3-4 OCTOBER 2006

## WORKSHOP 3 Simplification of the CAP;

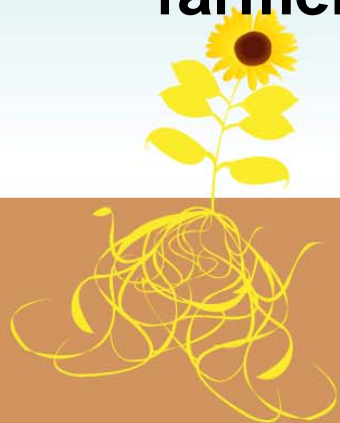

### Farmers' views

**Michael Hornborg**  
Vice President of COPA

**Farmers' general attitude is positive, however slightly sceptical;**

- **CAP is currently too complicated**
- **The word "simplification" has historical burdens for farmers**

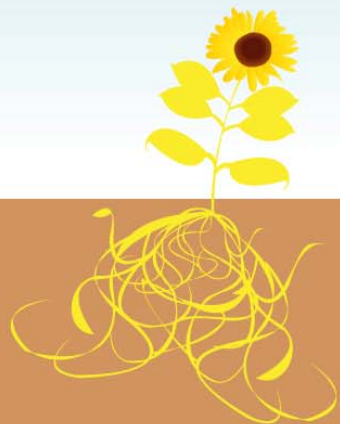

## Single CMO

- **Should be kept as a technical exercise**
- **Should not endanger the objectives of the CAP**
- **Concerns mainly administration, not farmers**

## CROSS COMPLIANCE

- **Source for complication**
- **Good target for simplification**

## CONTROLS

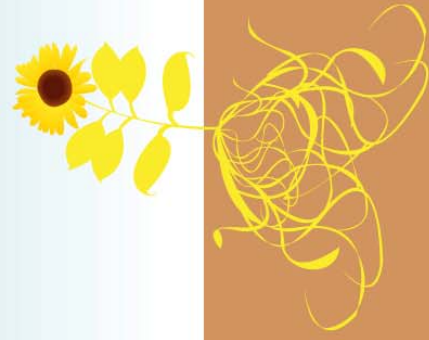

**”If we are speaking on simplification  
but we are not speaking on controls,  
we are not speaking on simplification”**
