

COMMISSION REGULATION (EC) No .../..

of

on the application of Articles 87 and 88 of the EC Treaty to State aid to small and medium-sized enterprises active in the production of agricultural products and amending Regulation (EC) 70/2001

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 994/98 of 7 May 1998 on the application of Articles 92 and 93 of the Treaty establishing the European Community to certain categories of horizontal State aid¹, and in particular Article 1(1)(a)(i) thereof,

[Having published a draft of this Regulation],

[Having consulted the Advisory Committee on State Aid],

Whereas:

- (1) Regulation (EC) No 994/98 empowers the Commission to declare, in accordance with Article 87 of the Treaty, that, under certain conditions, aid to small and medium-sized enterprises is compatible with the common market and not subject to the notification requirement of Article 88(3) of the Treaty.
- (2) Commission Regulation (EC) No 70/2001 of 12 January 2001 on the application of Articles 87 and 88 of the EC Treaty to State aid to small and medium-sized enterprises² does not apply to activities linked to the production, processing or marketing of products listed in Annex I to the Treaty.
- (3) The Commission has applied Articles 87 and 88 of the Treaty to small and medium-sized enterprises active in the production, processing and marketing of agricultural products in numerous decisions and has also stated its policy, most recently in the Community guidelines for state aid in the agriculture sector³ (hereafter referred to as the “Agriculture Guidelines”). In the light of the Commission’s considerable experience in applying those Articles to small and medium-sized enterprises active in the production of agricultural products, it is appropriate, with a view to ensuring efficient supervision and simplifying administration without weakening Commission monitoring, that the Commission should make use of the powers conferred by Regulation (EC) No 994/98 also for small and medium-sized enterprises active in the production of agricultural products, insofar as Article 89 of the Treaty has been declared applicable to such products.

² OJ L 10, 13.1.2001, p. 33.

³ OJ C 28, 1.2. 2000, p. 2. Corrected version (OJ C 232, 12.8.2000, p. 19).

- (4) Over the coming years, agriculture will have to adapt to new realities and further changes in terms of market evolution, market policy and trade rules, consumer demand and preferences and the enlargement of the Community. These changes will affect not only agricultural markets but also local economies in rural areas in general. Rural development policy should aim at restoring and enhancing the competitiveness of rural areas and, therefore, contribute to the maintenance and creation of employment in those areas.
- (5) Small and medium-sized enterprises play a decisive role in job creation and, more generally, act as a factor of social stability and economic drive. However, their development may be limited by market imperfections. They often have difficulties in obtaining capital or credit, given the risk-shy nature of certain financial markets and the limited guarantees that they may be able to offer. Their limited resources may also restrict their access to information, notably regarding new technology and potential markets. Having regard to those considerations, the purpose of the aid exempted by this Regulation should be to facilitate the development of the economic activities of small and medium-sized enterprises, provided that such aid does not adversely affect trading conditions to an extent contrary to the common interest. These developments should be encouraged and supported by simplification of the existing rules, as far as they apply to small and medium-sized enterprises.
- (6) The production, processing and marketing of agricultural products in the Community is largely dominated by small and medium-sized enterprises. However, there are considerable differences between the structure of primary production, on the one hand, and processing and marketing of agricultural products, on the other hand. The processing and marketing of agricultural products would often appear similar to that of industrial products. Therefore, it would appear more appropriate to have a different approach for processing and marketing of agricultural products and include it with the rules for industrial products. Consequently, and contrary to the approach taken in Commission Regulation (EC) No 1/2004 of 23 December 2003 on the application of Articles 87 and 88 of the EC Treaty to State aid to small and medium-sized enterprises active in the production, processing and marketing of agricultural products⁴, it appears useful to set up an exemption regulation targeted at the specific needs of primary agricultural production.
- (7) Council Regulation (EC) No 1257/1999 of 17 May 1999 on support for rural development from the European Agricultural Guidance and Guarantee Fund (EAGGF) and amending and repealing certain Regulations⁵ and Council Regulation (EC) No 1698/2005 of 20 September 2005 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)⁶ have introduced specific State aid rules for certain rural development measures receiving Member State support without any Community financing.
- (8) This Regulation should exempt any aid that meets all the requirements it lays down, and any aid scheme, provided that any aid that could be granted under such scheme meets all the relevant requirements of this Regulation. With a view to ensuring efficient supervision and simplifying administration without weakening Commission

⁶ OJ L 277, 21.10.2005, p. 1.

monitoring, aid schemes and individual grants outside any aid scheme should contain an express reference to this Regulation.

- (9) In view of the need to strike the appropriate balance between minimising distortions of competition in the aided sector and the objectives of this Regulation, it should not exempt individual grants which exceed a fixed maximum amount, whether or not made under an aid scheme exempted by this Regulation.
- (10) This Regulation should not exempt export aid or aid contingent upon the use of domestic over imported products. Such aid may be incompatible with the Community's international obligations under the World Trade Organisation (WTO) Agreement on Subsidies and Countervailing Measures and the WTO Agreement on Agriculture. Aid towards the costs of participation in trade fairs or of studies or consultancy services needed for the launch of a new or existing product on a new market should not normally constitute export aid.
- (11) In order to eliminate differences that might give rise to distortions of competition, to facilitate coordination between different Community and national initiatives concerning small and medium-sized enterprises and for reasons of administrative clarity and legal certainty, the definition of "small and medium-sized enterprises" used in this Regulation should be that laid down in Regulation (EC) No 70/2001.
- (12) In accordance with established practice of the Commission, and with a view to ensuring that aid is proportionate and limited to the amount necessary, thresholds should normally be expressed in terms of aid intensities in relation to a set of eligible costs, rather than in terms of maximum aid amounts.
- (13) In order to determine whether or not aid is compatible with the common market pursuant to this Regulation, it is necessary to take into consideration the aid intensity and thus the aid amount expressed as a grant equivalent. The calculation of the grant equivalent of aid payable in several instalments requires the use of market interest rates prevailing at the time of grant. With a view to a uniform, transparent, and simple application of the State aid rules, the market rates for the purposes of this Regulation should be deemed to be the reference rates. The reference rates should be those which are periodically fixed by the Commission on the basis of objective criteria and published in the *Official Journal of the European Union* and on the Internet.
- (14) In order to ensure transparency and effective monitoring, this Regulation should apply only to aid measures which are transparent. Therefore, Member States should always notify to the Commission aid measures which are not transparent, *i.e.* aid measures in which it is not possible to calculate precisely the gross grant equivalent as a percentage of eligible expenditure *ex ante* without a need to undertake a risk assessment. Examples of such aid measures are measures involving public loans, state guarantees containing elements of aid and public participations which do not meet the market economy investor principle. Notifications of non transparent aid measures will be assessed by the Commission in particular in the light of the criteria set out in the Community guidelines for agriculture.
- (15) In accordance with established practice of the Commission for the evaluation of State aid in the agricultural sector, no differentiation between small enterprises and medium-sized enterprises is necessary. For certain types of aid, the establishment of maximum amounts of aid which a beneficiary may receive is appropriate.

- (16) Aid ceilings should be fixed, in the light of the Commission's experience, at a level that strikes the appropriate balance between minimising distortions of competition in the aided sector and the objective of facilitating the development of the economic activities of small and medium-sized enterprises in the agriculture sector. In the interests of coherence with Community-financed support measures, the ceilings should be harmonised with those fixed in Regulation (EC) No 1257/1999 and in Regulation (EC) No 1698/2005.
- (17) It is appropriate to establish further conditions that should be fulfilled by any aid scheme or individual aid exempted by this Regulation. Any restrictions on production or limitations of Community support under the common market organisations should be taken into account. Having regard to Article 87(3)(c) of the Treaty, aid should not normally have the sole effect of continuously or periodically reducing the operating costs which the beneficiary would normally have to bear, and should be proportionate to the handicaps that have to be overcome in order to secure the socio-economic benefits deemed to be in the Community interest. Unilateral State aid measures which simply seek to improve the financial situation of producers but which in no way contribute to the development of the sector, and in particular aids which are granted solely on the basis of price, quantity, unit of production or unit of the means of production are considered to constitute operating aids which are incompatible with the common market. Furthermore, such aids are also likely to interfere with the mechanisms of the common organisations of the markets. It is therefore appropriate to limit the scope of this Regulation to certain types of aid.
- (18) This Regulation should exempt aid to small and medium-sized agricultural holdings (farms) regardless of location. Investment and job creation can contribute to the economic development of less favoured regions and areas as referred to in Article 36 (a) (i), (ii) and (iii) of Regulation (EC) No 1698/2005. Small and medium-sized agricultural holdings (farms) in those areas suffer from both the structural disadvantage of the location and the difficulties deriving from their size. It is therefore appropriate that small and medium-sized enterprises in such areas should benefit from higher ceilings.
- (19) Because of the risk of distortions resulting from targeted investment aid and in order to offer farmers freedom to decide about products invested in, investment aid exempted under this regulation should not be limited to specific agricultural products. This condition should not prevent a Member State from excluding certain agricultural products from such aid or aid schemes, notably where no normal market outlets can be found. Also, certain types of investment should per se be excluded from this Regulation. A mechanism should be introduced to ensure that investment aid is limited to the minimum needed. At the same time, such mechanism should help spreading available budgets over a bigger number of projects and thus increase overall investment volumes. For a given investment aid regime introduced, Member States should therefore be obliged to group aid requests according to aid intensity. Applications made for a group of lower aid intensity should be dealt with first. Member States should remain free to set up selection criteria and priorities within each such group, notably in order to give preference to projects for environmental protection, animal welfare, young farmers or less favoured areas.
- (20) Where aid is granted to adapt to newly introduced standards at Community level, Member States should not be in a position to lengthen the adaptation period for farmers

by delaying implementation of such rules. Therefore, the date from which new legislation can no longer be considered new should be clearly set out.

- (21) Certain Council Regulations in the field of agriculture provide for specific authorizations for the payment of aid by Member States, often in combination with or in addition to Community financing. However, those provisions usually do not provide for an exemption from the duty to notify under Article 88 of the Treaty, insofar as such aid fulfils the conditions of Article 87(1) of the Treaty. Since the conditions for such aids are clearly specified in those Regulations, and/or there is a duty to communicate such measures to the Commission under the special provisions of those Regulations, no further and separate notification under Article 88(3) of the Treaty is necessary in order to allow for an assessment of these measures by the Commission. For reasons of legal certainty, a reference to those provisions should be included in this Regulation, and therefore notification of those measures under Article 88 of the Treaty should not be necessary, insofar as it can be ascertained in advance that such aid is exclusively granted to small and medium-sized enterprises.
- (22) In order to ensure that the aid is necessary and acts as an incentive to develop certain activities, this Regulation should not exempt aid for activities in which the beneficiary would already engage under market conditions alone. No aid should be granted retroactively in respect of activities which have already been undertaken by the beneficiary.
- (23) This Regulation should not exempt aid cumulated with other State aid, including aid granted by national, regional or local authorities, with public support granted within the framework of Regulation (EC) No 1698/2005 or with Community assistance, in relation to the same eligible costs, when such cumulation exceeds the thresholds fixed in this Regulation. Aid exempted under this Regulation shall not be cumulated with *de minimis* support within the meaning of Regulation (EC) No 1860/2004 of 6 October 2004 on the application of Articles 87 and 88 of the EC Treaty to *de minimis* aid in the agriculture and fisheries sectors⁷ in respect of the same eligible expenditure or investment project, if such cumulation would result in an aid intensity exceeding that fixed by this Regulation.
- (24) In order to ensure transparency and effective monitoring, in accordance with Article 3 of Regulation (EC) No 994/98, it is appropriate to establish a standard format in which Member States should provide the Commission with summary information whenever, in pursuance of this Regulation, an aid scheme is implemented or an individual aid outside such schemes is granted, with a view to publication in the *Official Journal of the European Union*. For the same reasons, it is appropriate to establish rules concerning the records that Member States should keep regarding the aid exempted by this Regulation. For the purposes of the annual report to be submitted to the Commission by Member States, it is appropriate for the Commission to establish its specific requirements. In view of the wide availability of the necessary technology, the summary information and the annual report should be in computerised form.
- (25) Failure by a Member State to comply with the reporting obligations established in this Regulation may make it impossible for the Commission to perform its monitoring task under Article 88(1) of the Treaty and, in particular, to assess whether the cumulative economic effect of the aids exempted under this Regulation is such as to adversely

⁷ OJ L 325. 28.10.2004, p.4.

affect trading conditions to an extent contrary to the common interest. The need to evaluate the cumulative effect of state aid is particularly high where the same beneficiary may receive aid granted by several sources, as is increasingly the case in the field of agriculture. It is therefore of primary importance that the Member State rapidly submits appropriate information before implementing aid under this Regulation.

- (26) Aid to companies active in the processing and marketing of agricultural products should be covered by the rules governing aid to small and medium-sized enterprises in other sectors laid down in Regulation (EC) 70/2001. Regulation (EC) No 70/2001 should therefore be amended accordingly.
- (27) State aid exempted under Regulation (EC) No 1/2004 should continue to be exempted if it fulfils all the conditions of this Regulation.
- (28) It is appropriate to lay down transitional provisions for aid which was granted before the entry into force of this Regulation and was not notified in breach of the obligation in Article 88(3) of the Treaty.
- (29) This Regulation is without prejudice to the possibility for Member States to notify aid to small and medium-sized enterprises active in the production, processing and marketing of agricultural products. Such notifications will be assessed by the Commission in the light of this Regulation and on the basis of the Agriculture Guidelines. Notifications pending on the date of entry into force of this Regulation should be assessed first in the light of this Regulation and, if the conditions it lays down are not fulfilled, then on the basis of the Agriculture Guidelines.
- (30) Having regard to the Commission's experience in this area, and in particular the frequency with which it is generally necessary to revise State aid policy, it is appropriate to limit the period of application of this Regulation. Should this Regulation expire without being extended, aid schemes already exempted by this Regulation should continue to be exempt for a further period of six months, in order to give Member States time to adapt,

HAS ADOPTED THIS REGULATION:

Article 3
Conditions for exemption

1. Transparent individual aid outside any scheme, fulfilling all the conditions of this Regulation, shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty provided that the summary information provided for in Article 19(1) has been submitted and that it contains an express reference to this Regulation, by citing its title and publication reference in the *Official Journal of the European Union*.
2. Transparent aid schemes fulfilling all the conditions set out in this Regulation shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty provided that:
 - (a) any aid that could be awarded under such scheme fulfils all the conditions set out in this Regulation;
 - (b) the scheme contains an express reference to this Regulation, by citing its title and publication reference in the *Official Journal of the European Union*;
 - (c) the summary information provided for in Article 19(1) has been submitted.
3. Aid granted under the schemes referred to in paragraph 2 shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty provided that the aid granted directly fulfils all the conditions of this Regulation.
4. Aid which does not fall within the scope of this Regulation, or of other Regulations adopted pursuant to Article 1 of Regulation 994/98 or Regulations mentioned in Article 16 of this Regulation, shall be notified to the Commission in accordance with Article 88 (3) of the Treaty. Such aid shall be assessed in accordance with the criteria laid down in the Community guidelines on agriculture.

Chapter 2
Categories of Aid

Article 4
Investment in agricultural holdings

1. Aid for investments in agricultural holdings within the Community for primary production of agricultural products, shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty if it fulfils the conditions set out in paragraphs 2 to 10.

2. The gross aid intensity must not exceed 15% of eligible investments.

However, if the aid is granted following a transparent call for interest, asking for proposals of aid projects with a maximum aid intensity up to 15%, between 15% and 30%, and higher than 30%, it may be increased to up to:

- (a) 50% of eligible investments in less favoured areas or in areas referred to in Article 36(a)(i), (ii) and (iii) of Regulation (EC) No 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation;
- (b) 40% of eligible investments in other regions.
- (c) 60% of eligible investments in less-favoured areas or in areas referred to in Article 36(a)(i), (ii) and (iii) of Regulation (EC) No 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation, and 50% in other regions, in the case of investments made by young farmers within five years of setting up;
- (d) 75% of eligible investments in the outermost regions and the small Aegean Islands within the meaning of Council Regulation (EC) No 2019/93¹²;
- (e) 75% of eligible investments in regions referred to under (a) and 60% in other regions where investments result in extra costs relating to the protection and improvement of the environment, the improvement of hygiene conditions of livestock enterprises or the welfare of farm animals. This increase may only be granted for investments which go beyond the minimum Community requirements in force, or for investments made to comply with newly introduced minimum standards. The increase must be limited to the extra eligible costs necessary and must not apply in the case of investments which result in an increase in production capacity;

In that case, the budget for the aid regime must be fixed and made public in advance. The available budget must first be committed to projects in the group with the lowest aid intensity requested. Only the remaining amount may then be committed to projects in the following group of aid intensity. The call for interest must use a degree of advertising sufficient to enable the market to be opened up to competition and the impartiality of the procedure to be reviewed. Such calls for interest may be repeated throughout the duration of an aid regime, but not more than once a year.

3. The investment must pursue one or more of the following objectives:

- (a) reduction of production costs;
- (b) improvement and re-deployment of production;
- (c) improvement in quality;
- (d) preservation and improvement of the natural environment, hygiene conditions and animal welfare standards..

4. The eligible expenses may include:

- (a) the construction, acquisition or improvement of immovable property;

¹² OJ L 184, 27.7.1993, p. 1.

- (b) the purchase or lease-purchase of machinery and equipment, including computer software up to the market value of the asset; other costs connected with a leasing contract (tax, lessor's margin, interest refinancing costs, overheads, insurance charges, etc.) are not eligible expenditure;
 - (c) general costs linked to expenditure under points (a) and (b), such as architects, engineers and consultation fees, feasibility studies, the acquisition of patents and licences.
5. Aid may only be granted to agricultural holdings which are not enterprises in difficulty.
- Aid may be granted in order to enable the beneficiary to reach newly introduced minimum standards regarding the environment, hygiene and animal welfare.
6. The aid must not be granted in contravention of any prohibitions or restrictions laid down in Council Regulations establishing common organisations of the market, even where such prohibitions and restrictions only refer to Community support.
7. The aid must not be limited to specific agricultural products and must therefore be open to all sectors of agriculture, unless a Member State excludes certain products because of overcapacity or a lack of market outlets. Aid must not be granted in respect of the following:
- (a) the purchase of production rights, animals, land other than land for construction purposes, plants or the planting of plants, greenhouses, drainage works or irrigation equipment and irrigation works unless such investment leads to a reduction of previous water use of at least 25%;
 - (b) simple replacement investments.
8. The maximum amount of aid granted to an individual enterprise must not exceed EUR 400 000 over any period of three fiscal years, or EUR 500 000 if the enterprise is situated in a less favoured area or in areas referred to in Article 36 (a) (i), (ii) or (iii) of Regulation (EC) No. 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation.
9. The aid must not be granted in respect of the manufacture and marketing of products which imitate or substitute for milk and milk products.

Article 5

Conservation of traditional landscapes and buildings

1. Aid for conservation of traditional landscapes and buildings shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty if it fulfils the conditions set out in paragraphs 2 and 3.
2. Aid may be granted up to 100% of the real costs incurred as regards investments or capital works intended for the conservation of non-productive heritage features located on agricultural holdings, such as archaeological or historical features. These costs may include reasonable compensation for the work undertaken by the farmer himself, or his workers, up to a limit of EUR 10 000 a year.

3. Aid may be granted up to 60%, or 75% in less favoured areas or in areas referred to in Article 36 (a) (i), (ii) or (iii) of Regulation (EC) No. 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation, of the real costs incurred as regards investments or capital works intended for the conservation of heritage features of productive assets on farms, such as farm buildings, provided that the investment does not entail any increase in the production capacity of the farm.

Where there is an increase in production capacity, the aid rates for investment established in Article 4(2) shall apply as regards eligible expenses resulting from undertaking the relevant work using normal contemporary materials. Additional aid may be granted at a rate of up to 100% to cover the extra costs incurred by using traditional materials necessary to maintain the heritage features of the building.

Article 6

Relocation of farm buildings in the public interest

1. Aid for the relocation of farm buildings shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty if it is in the public interest and fulfils the conditions set out in paragraphs 2, 3 and 4.

The public interest invoked to justify the granting of aid under this Article shall be specified in the relevant provisions of the Member State.

2. Aid may be granted up to 100% of the actual costs incurred where a relocation in the public interest simply consists of the dismantling, removal and re-erection of existing facilities.
3. Where the relocation in the public interest results in the farmer benefiting from more modern facilities, the farmer must contribute at least 60%, or 50% in less favoured areas or in areas referred to in Article 36 (a) (i), (ii) or (iii) of Regulation (EC) No. 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation, of the increase in the value of the facilities concerned after relocation. If the beneficiary is a young farmer, this contribution shall be at least 55% or 45% respectively.
4. Where the relocation in the public interest results in an increase in production capacity, the contribution from the beneficiary must be at least equal to 60%, or 50% in less favoured areas or in areas referred to in Article 36 (a) (i), (ii) or (iii) of Regulation (EC) No. 1698/2005, as designated by Member States in accordance with Articles 50 and 94 of that Regulation, of the expenses relating to this increase. If the beneficiary is a young farmer, this contribution shall be at least 55% or 45%.

Article 7

Aid for setting up of young farmers

Aid for the setting up of young farmers shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty if the criteria set out in Article 22 of Regulation (EC) No 1698/2005 are fulfilled..

Article 8
Aid for early retirement

Aid for early retirement of farmers shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty under the following conditions:

- (a) the criteria set out in Article 23 of Regulation (EC) No 1698/2005 and any rules adopted by the Commission to implement that Article must be fulfilled;
- (b) the cessation of commercial farming activities must be permanent and definitive.

Article 9
Aid for producer groups

1. Start-up aid for the constitution of producer groups or producer associations shall be compatible with the common market within the meaning of Article 87(3)(c) of the Treaty and shall be exempt from the notification requirement of Article 88(3) of the Treaty if it fulfils the conditions set out in paragraphs 2 to 9.

Those rules may permit a proportion of the production to be marketed directly by the producer. They must require producers joining the group or association to remain members for at least three years and to give at least 12 months notice of withdrawal. In addition they must provide common rules on production, in particular relating to product quality, or use of organic practices or other practices designed to protect the environment, common rules for placing goods on the market and rules on product information, with particular regard to harvesting and availability. 5. The aid must not be granted to production organisations such as companies or co-operatives, the objective of which is the management of one or more agricultural holdings and which are therefore in effect single producers.
6. The aid must not be granted to other agricultural associations, which undertake tasks at the level of agricultural production, such as mutual support and farm relief and farm management services, in the members' holdings without being involved in the joint adaptation of supply to the market.
7. The total amount of aid granted to a producer group or association under this Article must not exceed EUR 400 000.

This report may be integrated into the annual report to be submitted by Member States pursuant to Article 21(1) of Council Regulation (EC) No 659/1999²³, and shall be submitted by 30 June of the year following the calendar year covered by the report. By the same date, the Member State submits a separate report relating to payments made under Articles 10 and 11 of this Regulation, describing the amounts paid in that calendar year, the conditions for payment, the diseases concerned under Article 10, and in relation to Article 11 the appropriate meteorological information proofing type, timing, relative magnitude and location of the climatic events and on its consequences on the production for which compensation has been granted.
