Dear Ms Postle,

Please find the Royal Society of Chemistry's submission to the **Consultation on the Regulatory Fitness of Chemicals Legislation (excluding REACH)** attached.

The Royal Society of Chemistry (Transparency Register ID Number 622934711000-42) welcomes the opportunity to contribute to the European Commission consultation on the regulatory fitness of chemicals legislation (excluding REACH).

The Royal Society of Chemistry is the world's leading chemistry community, advancing excellence in the chemical sciences. With over 55,000 members and a knowledge business that spans the globe, we are the UK's professional body for chemical scientists; a not-for-profit organisation with 175 years of history and an international vision for the future.

The RSC's Royal Charter obliges it to serve the public interest by acting in an independent advisory capacity, and we would therefore be happy for this submission to be put into the public domain.

We would be happy to provide further information in connection with any of the points in the following submission.

Yours faithfully,

Dr Steven Lipworth  
Policy Adviser  
Environment Health & Safety
