## PROCEDURE 6

### **THE PROCEDURE TO OBTAIN THE eHMSEG DECISION TO CONTINUE THE NCPeH ROUTINE OPERATIONS AFTER THE ANNUAL UPGRADE PRE-PRODUCTION TESTS**

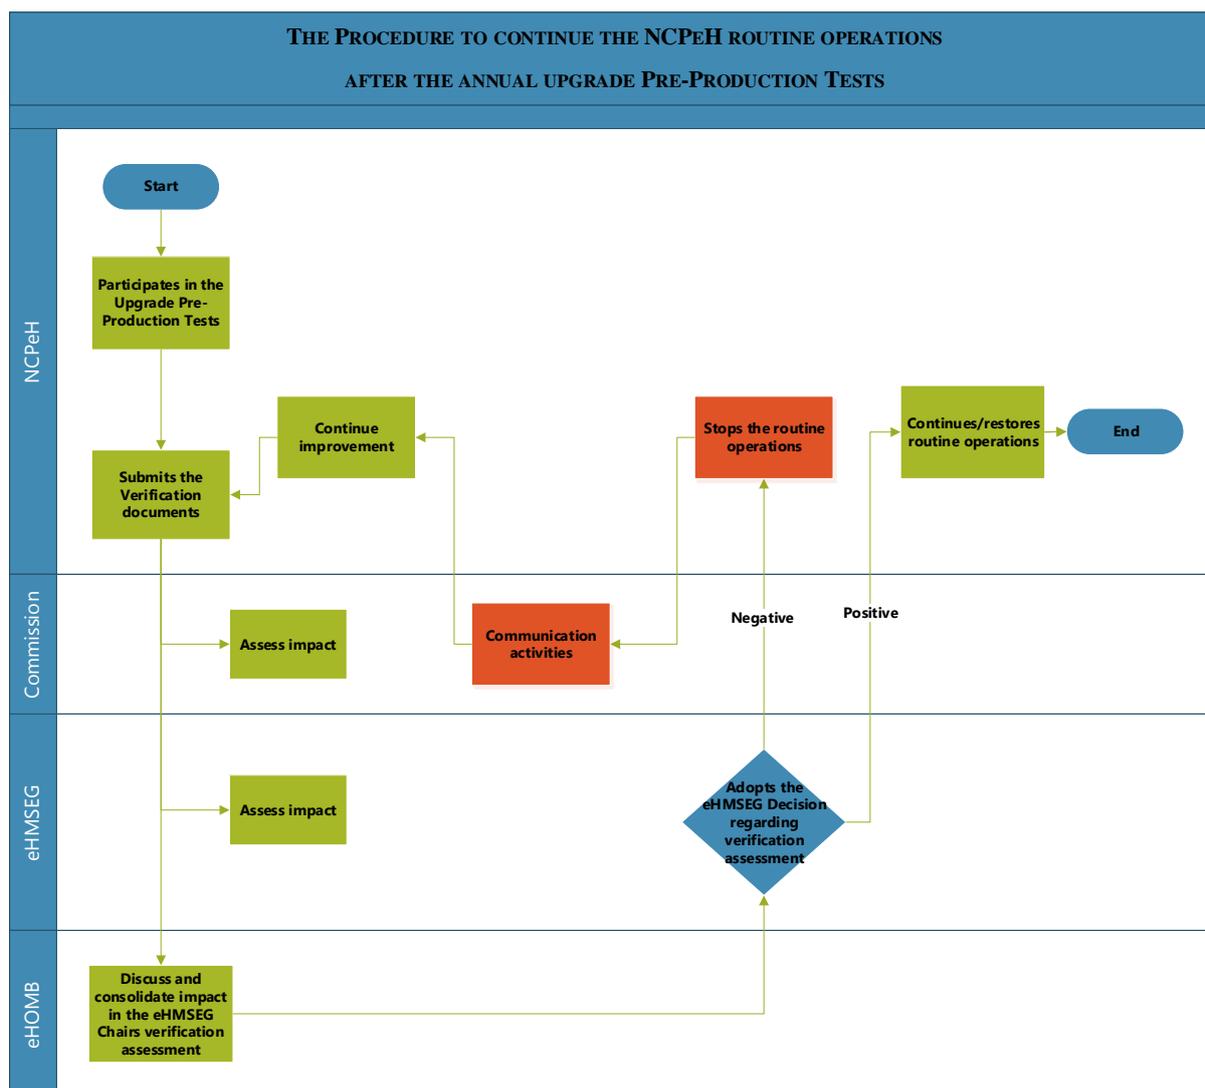

Applicable to all Members States in routine operations.

#### GENERAL REMARKS

- (1) The eHealth Digital Service Infrastructure Governance bodies work through their Secretariats provided by the Commission, as follows:
  - eHealth Operational Management Board – via eHOMB Secretariat (SANTE-EHEALTH-DSI@ec.europa.eu)
  - eHealth DSI Member States Expert Group – via eHMSEG Secretariat (SANTE-EHDSI-SECRETARIAT@ec.europa.eu)
  - eHealth Network – via eHN Secretariat (eHEALTH-NETWORK@ec.europa.eu)
- (2) According to the eHDSI Test Framework, the NCPeH, which have started routine operations, have to participate annually in the Upgrade Pre-Production Tests to demonstrate their conformance with eHDSI Specifications and fulfilment of the eHDSI Solution Requirements. The Overall Summary Test Report is the result of the Upgrade Pre-Production Tests.
- (3) In the case of any open findings, the eHDSI relevant governance bodies need to assess their impact on the eHDSI, and decide if the NCPeH can continue the routine operations. The time given to the NCPeHs to fix the open findings is subject to the eHMSEG decision.
- (4) As support materials for the impact assessment, the Updated Outcome Summary Test Report (issued by the eHDSI Solution Provider, DG SANTE A4) has to be provided. This report describes the status of the conformance and functional findings.
