2010/MARKT/021	Marché intérieur et services	Regulation governing translation requirements for the future EU Patent	MARKT	Adopté le 30 juin 2010	Traité sur le fonctionnement de l'Union européenne: art. 118	procédure législative spéciale - consultation du Parlement européen (CNS)		Programme de travail de la Commission / 2010 / Initiatives stratégiques It will propose the translation arrangements for the EU patent. The Council adopted Conclusions on an Enhanced Patent System in Europe on 4.12.09 along with a General Approach on the Regulation for an EU patent. The Conclusions and the entry into force of the Lisbon Treaty require the translation arrangements to be the subject of a separate Regulation from that of the EU patent. This needs to be proposed by the Commission so that the Council adopts the necessary translation arrangements. The creation of the EU patent would provide a single title for patent protection in Europe. This is the both the most affordable and legally-secure answer to the challenges with which Europe is confronted in the field of patents and innovation.

The European Parliament considered that the legal basis should have been Article 159§3 of the Treaty and launched an appeal with the Court of Justice. The Court ruled that both Articles 159§3 and 308 should be used as the legal basis and has therefore annulled Regulation 1968/2006 and asked the institutions to adopt a replacement regulation with a dual legal basis. There is a clear wish from stakeholders and Member States for a wider use of these new and safe vaccines without the current restrictions. Therefore, the main objective is to update the legislation on bluetongue in line with technological progress in the field of vaccine development, resulting in a more flexible use of inactivated vaccines against bluetongue, by removing the obstacles for preventive vaccination outside areas subjected to animal movement restrictions. This will also improve sustainability, feasibility and proportionality of the rules on bluetongue control.

However, in view of the remaining problems on access to finance, the prolongation of some of the Temporary Framework measures until the end of 2011 seems justified. 2010/COMP/030	Concurrence	Communication from the Commission amending the Community guidelines on State aid to promote risk capital investments in small and medium-sized enterprises	COMP	Adopté le 1 décembre 2010				The current RCG were adopted in 2006. As of 2009, the Temporary Framework included a temporary adaptation of the RCG by allowing a lower participation by private investors and higher 'safe harbour' investment tranches. In view of the remaining problems on access to finance, the incorporation of the higher 'safe harbour' investment tranche into the RCG seems justified. The temporary lowering of the private participation will however be discontinued as of 1.1.2011 to ensure proportionality of aid and limited distortion of competition. It is proposed to amend the RCG by making the higher 'safe harbour' investment tranche introduced by the Temporary Framework permanent.
