2007/ENV/024	Environnement	Commission Decisions concerning the placing on the market of GMO products, as notified by their companies, in accordance with Directive 2001/18/EC of the European Parliament and of the Council.	ENV	4ème trimestre 2007	Législation secondaire: Directive 2001/18/EC			If a particular product is to be made available, these Decisions will cover specific conditions relating to their marketing, in accordance with the procedure foreseen by Arts. 13-18 of Directive 2001/18/EC.	
2007/ENV/036	Environnement	Draft Commission Regulation on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market, and repealing and replacing Regulation (EC) No 2032/2003 (5th review)	ENV	4ème trimestre 2007	Législation secondaire: Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market.			The practice of constantly updating Regulation (EC) No 2032/2003 in order to follow the evolution of the review programme has proven ineffectual and time-consuming; furthermore it could create confusion to stakeholders as to which rules apply and which active substances are currently under review. In order to clarify matters, it is preferable to repeal and replace Regulation (EC) No 2032/2003 by a new simplified act which will lay down the rules for the review programme, and that the Commission should adopt separate acts for the future non-inclusion decisions.	
2006/ESTAT/013	Statistiques	Proposal for a Regulation of the European Parliament and of the Council on tourism statistics (replacing Council Directive 95/57/EC)	ESTAT	4ème trimestre 2007	Traité instituant la Communauté européenne: Article 285(1)	codécision (COD)		The present Council Directive on Tourism Statistics dates from the years 1994/1995, the related Commission Decision dates from the years 1997/1998. Since then, both the tourism market itself and the policy concerns relating to tourism have changed considerably. The enlargement of the European Union is having a further impact on both tourism and tourism policy. In addition to this, new statistical tools like the Tourism Satellite Account methodology have been introduced. As a result of these changes, the present legislation in the field of tourism statistics does no longer correspond fully to the need of the users of tourism statistics and thus needs to be critically reviewed with a view to adapting it to current expectations.	
2005/FISH/029	Pêche et affaires maritimes	Proposal for a Council Decision concerning the approval of an amendment to the Convention on future multilateral co-operation in the North-East Atlantic Fisheries allowing the establishment of a dispute settlement procedure	FISH	4ème trimestre 2007	Traité instituant la Communauté européenne: Article 37 in conjunction with article 300 of the EC Treaty	consultation (CNS)		The Contracting Parties to the Convention adopted an amendment at the 23rd Annual Meeting of 8-12 Nov. 2004 allowing its governing body the North-East Atlantic Fisheries Commission (NEAFC) to adopt recommendations establishing procedures for settlement of disputes arising under the Convention. In accordance with Art. 19 of the Convention, an amendment shall take effect 120 days following the date of the notification by the Depositary of receipt of written notification of approval of three-fourths of all Contracting Parties. NEAFC has adopted recommendations establishing detailed rules for a dispute settlement procedure. The entering into force of the recommendations is pending the approval of the present proposal to amend the Convention.	
2007/FISH/033	Pêche et affaires maritimes	Proposal for a Council Regulation establishing a long-term plan for the stock of herring distributed to the West of Scotland and the fisheries exploiting that stock.	FISH	4ème trimestre 2007	Traité instituant la Communauté européenne: Article 37.	consultation (CNS)		The plan aims at establishing simple rules for setting the TAC for this stock as a function of scientific estimates of the stock size. This will simplify decision making and improve transparency. Provisions to improve catch controls will be needed and associated technical measures such as closed areas can be removed. In order to improve catch control the proposal includes an article on the implementation of area-specific special fishing licences.
