PART 1: TECHNICAL DESCRIPTION

1. CONTEXT

This study concerns the provisions in Chapter III (notably Art 4 and 5) of Council Directive 89/552/EEC of 3 October 1989¹, as amended by Directive 97/36/EC of the European Parliament and of the Council of 30 June 1997² (hereafter referred to as 'the TVWF Directive') which aim at promoting the distribution and production of European television programmes. A report on the application of these provisions is published every second year, the last report being the Seventh Communication on the application of Articles 4 and 5³.

In addition, Article 25(a) of the Directive provides for a further review of Article 4(4), which takes into account an independent study on the impact of the measures in question at both the national and Community levels. According to the above mentioned articles, a Commission report shall be drafted on the application of these measures. In this context, a "Study on the impact of measures concerning the promotion of the distribution and production of TV programmes (national and Community) provided for under Article 25 (a) of the TVWF Directive⁴" was delivered to the Commission on 24 May 2005 by an independent consultant. This study covered the Community with 15 Member States.

In the meantime, the Commission has adopted a legislative proposal amending the TVWF Directive, notably with the aim to cover non-linear services⁵. The amended proposal (hereafter referred to as 'AVMS' proposal) contains a provision by which Member States ensure that on-demand services promote, where applicable and by appropriate means, production and access to European works. The proposal foresees also that the Commission reports on the application of this provision, notably on the basis of an independent study.

In this context, the study, building on the findings of the 2005 study and extending its scope in order to cover the present 27 Member States of the European Union, shall identify and analyse the likely impact of the measures taken at the national or Community level to implement the TVWF Directive, or those measures in line with the AVMS proposal, in order to promote European audiovisual works in the sectors of linear broadcasting services as well as on-demand services.

2. OBJECTIVES OF THE STUDY

2.1 General objectives

- The aim of the study is to provide the Commission with the elements required for the monitoring and evaluation at periodical intervals (as foreseen by the TVWF Directive as well as the AVMS Proposal) of the impact of the measures, taken at Community and national levels for the promotion and distribution of European audiovisual works.
- The study will build on the results of the independent study of 2005 mentioned above.
- The geographical coverage of this study will be the EU and EEA Member States as of 01/01/2007.

2.2 Specific objectives⁶

It is the intention of the Commission to evaluate periodically the impact on the audiovisual sector in the EU and EEA Member States of:

- The national legislations implementing the above mentioned articles of Chapter III of the TVWF directive as well as
- The national legislations already introduced which are in line with provisions in the AVMS proposal covering on-demand services and being similar to those of Chapter III of the TVWF directive

in terms of:

a) **Programming** (with details on number of titles, genres, duration) and **related audience** for linear broadcasting of:

i) Recent European audiovisual works or works older than 5 years created by independent producers or by producers linked to broadcasters

and

ii) Non-European audiovisual works

This refers to the kinds of works that are covered by the provisions of Articles 4 and 5 of the Directive, in order to identify the proportions and certain features of the supply and viewers consumption of broadcasted European and non-European audiovisual works.

b) **Composition of Catalogues** (number of titles offered, their genre and overall duration) and **Consumer's demand** (quantities acquired or rented and values) of on-demand services grouping:

i) European audiovisual works

⁶ The definitions for: "television broadcasting", "broadcasters", "European", "audiovisual work", "on-demand services", "on-demand services provider", etc. are those set in the AVMS Directive

ii) Non-European audiovisual works

This refers to the kinds of works that are covered by the provisions of Articles 4 and 5 of the Directive, in order to identify the proportions and certain features of the supply and viewers consumption of European and non-European audiovisual works distributed on-demand.

c) **Overall upstream demand** (quantities and values) of recent European works or works older than 5 years, for audiovisual works produced by independent producers or by producers linked to broadcasters or to on-demand service providers.

d) **Impact on cultural diversity**, notably concerning the presence of national audiovisual works or, in general of European non-national works in programming schedules and audience for television broadcasting as well as catalogues and consumer demand for on-demand services.

In view of the periodical evaluation mentioned above, the contractor shall identify the analytical elements, the evaluation criteria and the procedures to be applied. Analysis, evaluation criteria and procedures should cover, at least (**outputs**):

2.2.1. A **description and analysis of the implementing measures** taken by the EU and EEA Member States pursuant to Articles 4 and 5 of the Directive as of the end 2007. With respect to on-demand services and pending the adoption and entry into force of the proposed AVMS Directive, the study should cover the measures, which may have already been adopted by some Member States in respect of on-demand services.

2.2.2. For each EU and EEA Member State

An **analysis and description of the market for audiovisual works** as of the end 2007 covering, at least:

- Broadcasters, on-demand services providers
- TV audience, consumers' demand of on-demand services

and

An **analysis and description of the production industry** as of end 2007 covering, at least:

- Independent producers
- Producers linked to broadcasters

This analysis is to refer to the kinds of audiovisual works covered by the provisions of Article 4 and 5 of the TVWF Directive specifying:

- Number of titles;
- Genres;
- Duration;

The analysis will contain an **elaboration of overall business models** as of end 2007 with a specific focus on the audiovisual works' production sector, with reference to:

- Independent producers;
- Producers linked to broadcasters

All analysis should, in particular, look at the broadcasters listed in the most recent national reports on the application of Article 4 and 5 of the Directive (for the period covering 2003-2004, a summary of the Member States' reports can be found in the Annex to the Seventh Communication from the Commission to the Council of the European Economic and Social Committee and the Committee of the Regions⁷).

In line with the relevant provisions of the proposed AVMS directive, the main providers of on-demand content should also be identified and covered by the analysis.

2.2.3 A definition of:

- A set of **performance indicators** for the measures referred to in point 2.2.1. in order to assess their impact on the topics covered under point 2.2.2;
- A set of **operational procedures** in view of carrying out monitoring and assessment activities at periodical intervals.

2.2.4 Application of procedures and indicators

A joint offer is a situation where an offer is submitted by a group of tenderers. Tenderers of the group will be regarded as **partners**.

Tenderers of the group, if awarded the contract, will have an equal standing towards the contracting authority in executing the contract.

The partnership may take the form of:

- a *new legal entity*. In that case, the new entity shall contract with the Commission
- or
- a *power of attorney signed by authorised representatives of all partners* designating one of the partners as Lead Contractor (Annex 5 – Power of attorney). The Lead Contractor of the partnership (if awarded the contract) shall sign the contract with the Commission.

In both cases, all partners shall be considered as tenderers and shall **assume joint and several liability towards the European Commission for the performance of the contract as a whole**.

The tenderer submitting the offer, if awarded the contract, shall become the sole contractor and shall assume **full liability towards the European Commission for the performance of the contract as a whole**. The other service providers will be regarded as subcontractors.

Attention is also drawn to the award criteria, which define those parts of the technical offer to which the tenderers should pay particular attention. The technical offer should address all matters laid down in the specifications and should include models, examples and technical solutions to problems raised in the specifications. 5. EVALUATION OF TENDERS

The evaluation of tenders will be done in accordance with the following subsequent steps:

Once the Commission has verified that the tenderer is not in one of the situations covered by the exclusion criteria (first step, see point 5.1 below) and that he has the appropriate capacity to perform the contract on the grounds of the selection criteria (second step, see point 5.2 below), it will assess the offer on the basis of the award criteria (third step, see point 5.3 below).

Each institution has a central database containing information on tenderers who have been in one of the situations described under 5.1.1 and 5.1.2 above. The sole purpose of this database is to ensure, in compliance with Community rules on the processing of personal data, that the above-mentioned cases of exclusion are applied correctly. Each institution has access to the databases of the other institutions.

2. In accordance with Article 96 of the Financial Regulation the contracting authority may impose administrative or financial penalties on the following:
 - (a) candidates or tenderers in the cases referred to in point (b) of Article 94 of the Financial Regulation;

5. Pursuant to article 133a of the Regulation laying down the rules for the implementation of the Financial Regulation, in order to determine duration of exclusion and to ensure compliance with the principle of proportionality, **the institution responsible** shall take into account in particular the seriousness of the facts, including their impact on the Communities' financial interests and image and the time which has elapsed, the duration and recurrence of the offence, the intention or degree of negligence of the entity concerned and the measures taken by the entity concerned to remedy the situation.

When determining the period of exclusion, the institution responsible shall give the candidate or tenderer concerned the opportunity to express their views.

Where the duration of the period of exclusion is determined, in accordance with the applicable law, by the authorities or bodies referred to in Article 95(2) of the Financial Regulation, the Commission shall apply this duration up to the maximum duration laid down in Article 93(3) of the Financial Regulation.
