Television without Frontiers Directive Theme 3

Cultural Diversity and the Promotion of European and Independent Audiovisual Production

Cultural diversity is one of the fundamental principles of the EU and it is also one of the most important objectives of 'Television Without Frontiers' Directive.

It is important to FEP members that the production and distribution of European works get promoted.

That's why FEP supports that knowledge of cultural production is shared and encourages the exchange and the circulation of European works. Anything to further this cooperation should be encouraged.

As FEP defends the preservation and the promotion of cultural diversity, we support articles 4 and 5 that reserve a quota system for European works.
