

## **EUROPEAN COMMISSION CATEGORY 2010**

**Deadline for Entries: 15<sup>th</sup> March 2010**

**European Commission Category: "Creating short videos combining user-generated and online archive content"**

**Best video clip mixing audiovisual archives with user-generated content on the theme "Picturing Europe". The clip should be produced for the internet and also suitable to be disseminated via mobile devices and shared on social networks. The winner will receive a prize of €10,000.**

### **THE BRIEF**

The audiovisual service of the European Commission has the largest collection of audiovisual archive material on the construction of the European Union dating back to 1945. The number of digitised items accessible on its website amounts to 1 300 videos, 30 000 photos and 11 000 historical audio files.

The European Commission is inviting audiovisual professionals as well as individuals to compete in the production of a video clip of maximum 3 minutes, presenting an original vision of Europe based on EU archive material mixed with new or remixed images produced by the participant.

The clip should express a personal vision of Europe and be able to captivate a young and wide audience via internet and/or mobile devices through its original, creative or aesthetical approach.

Applicants should convey a positive vision of Europe with an artistic, documentary, humoristic or fictional angle, picturing personal or public situations, current or historical, of European life in their immediate environment: family, enterprise, community, association, city, village; local events – music, fashion, leisure, games that could represent an original vision of Europe.

## **TARGET AUDIENCE**

The European Commission is expecting video clips having the potential to create a real impact on an audience aged 15-35 of all genders and socio-economic backgrounds.

## **SELECTION CRITERIA**

- Originality of the clip, level of creativity, artistic and aesthetical approach
- Universality of the content and its capacity to touch the target group all over Europe via different platforms
- Its capacity to be shared, and to develop groups or blogs around its content
- The technical quality of the final product.
