	<p>neutrally', I mean this is something and that's why for the 3rd time in my report I do encourage and urge the 5 Member states to recognize and I give a concrete example, for example Kosovo is not part of EUROPOL and INTERPOL and everybody talks and especially those who haven't recognized 'we have to fight corruption and organised crimes, well, how should that be done if Kosovo authorities those who want to fight corruption and organised crime are not part of EUROPOL and INTERPOL. against but also
sentenced. There still
needs to be done more
especially for High
level cases, but I also
have to say that there
has to be more
cooperation of the
banks for example
because they have to
tell who the accounts
are for, I know from
Kosovo, I know from
my own country
(Austria) and other, it is
very often that the
banks are very
hesitant."
