TIME	DESCRIPTION	DURATION
10:00:00	Title	00:00:05
10:00:05	Exterior views of the Circuit de Catalunya, in Barcelona (2 shots)	00:00:11
10:00:16	European Commission's flag	00:00:04
10:00:21	Arrival of Antonio Tajani, Vice-President of the EC in charge of Industry and Entrepreneurship, at the Circuit of Catalunya (3 shots)	00:00:15
10:00:36	Soundbite by Antonio Tajani (in ENGLISH): For us it is important because automotive sector is the most important one within our European industry. For us it is important to compete on the world. It is possible for us to compete on the quality, it is impossible to compete on the quantity. The automotive sector is the most important sector on high technology. It is crucial for us if we want to reduce the CO2 emissions. It is important to improve this strategy.	00:00:31
10:01:08	Presentation of the electric car Volar-e (2 shots)	00:00:09
10:01:17	Cutaway of press	00:00:05

10:01:55	Car being tested on the circuit	00:00:05
10:02:00	Soundbite by Antonio Tajani (in ENGLISH): Automotive sector it is very important if we want to reduce the CO2 emissions. Now it is a good message in favour of this strategy. Electric car is one between many solutions. We are neutral on this but electric car is one of the solutions.	00:00:21
10:02:22	Exterior views of the car (8 shots)	00:00:44
10:03:06	European Commission banner	00:00:04
10:03:10	Soundbite by Antonio Tajani (in ENGLISH): This is the future, of course, not for tomorrow but for the next years. For us it is important to reduce CO2 emissions. Our engagement against climate's change is crucial but in the next years we will have a lot of electric cars, hybrid cars and hydrogen cars. This is the future for 2050. We will have a lot of electric cars, hybrid cars and hydrogen cars.	00:00:29
