Youth on the Move is a new flagship initiative aimed at helping young people to gain the knowledge, skills and experience they need to make their first job a reality. Youth on the Move aims to extend opportunities for learning mobility to all young people in Europe by 2020. Around 400 000 young people are set to benefit from EU mobility programmes in 2011: Erasmus, Leonardo da Vinci and Youth in Action. Youth on the Move is a campaign aimed at encouraging young people to spend part of their studies or training abroad, or to volunteer abroad. The objective is that they improve their language skills as well as broader intercultural skills so that they increase their personal development and employability. This is vital at a time of increased youth unemployment. The Commission wants to increase its budget for these education, training and youth programmes by more than 70 per cent in 2014-2020, and to bring them under a single, simplified programme. This would bring new synergies and enable the Commission to double the number of young people receiving EU mobility grants i.e. 800 000 a year compared to now.

HEURE	DESCRIPTION	DUREE
00:00:00	TitleDuring the "Festival d'Europa" in Firenze, the Youth on the Move initiative was presented to the public. The five-day programme (6-10 May 2011) was composed of project presentations, testimonials and exchange of experiences and aimed to give young people the opportunity to discuss among themselves the possibilities of mobility and of acquiring the skills needed to get a stable job.	00:00:18

00:01:41	Title The Comenius Programme focuses on all levels of school education, from pre-school and primary to secondary schools. It is relevant for everyone involved in school education: mainly pupils and teachers but also local authorities, representatives of parents' associations, non-government organisations, teacher training institutes and universities. Part of the EU's Lifelong Learning Programme, the Comenius Actions aim to help young people and educational staff better understand the range of European cultures, languages and values. They also help young people acquire the basic life skills and competences necessary for personal development, future employment and active citizenship.	00:00:05
