

EU: First Certification Schemes for Biofuels

Type: [Archives \[short\]](#) Référence: [I070520](#) Durée: 04:44 Lieu: [France](#) | [Bucharest](#) | [Sweden](#) | [Germany](#) | [Austria](#) | [Belgium](#)

On 19 July 2011, the European Commission presented the very first EU Certification Schemes for biofuels which prove that the biofuels produced in the EU or imported into the EU are sustainable. This means that no forest has been chopped down or wet lands dried to produce biofuels on it.

HEURE	DESCRIPTION	DUREE
00:00:00	Generic and title	00:00:20
00:00:20	Rape field, wheat field, beet field, sunflower field, France and Germany, 2008 (17 shots)	00:00:45
00:01:05	Exterior views of Marex factory, with trucks unloading corn. The company is specialized in the production of bioethanol from corn, Bucharest, Romania, 11/2009 (5 shots)	00:00:25
00:01:31	Employee supervising the fermentation process (6 shots)	00:00:33
00:02:04	Employee controlling the production process (4 shots)	00:00:20
00:02:24	Employee controlling the process on a computer screen (5 shots)	00:00:25
00:02:49	Hybrid car filling up with bioethanol at fuel station, Belgium, 05/2007 (5 shots)	00:00:37

00:03:26	Biodiesel bus, Sweden, 2005 (5 shots)	00:00:16
00:03:42	Biodiesel truck	00:00:04
00:03:46	Biodiesel bus in the city and refueling, Austria, 2007 (9 shots)	00:00:49
