

EU energy infrastructure regulation

Type: [Archives \[short\]](#) Référence: [I071209](#) Durée: 07:03 Lieu: [Turkey](#) | [Norway](#) | [Algeria](#) | [France](#) | [Azerbaijan](#) | [Greece](#) | [Denmark](#) | [Spain](#) | [Ireland](#)

The Commission released a proposal for a new energy infrastructure regulation, paving the way for the implementation by 2020 of twelve trans-European infrastructure priority corridors and areas. The regulation introduces clear rules to identify and deploy "Projects of Common Interest". Key elements of the proposal are also faster, easier and more transparent permit granting procedures for projects of common interest.

HEURE	DESCRIPTION	DUREE
00:00:00	Generic and title	00:00:20
00:00:20	General views of existing infrastructure at Karacabey gas pigging station and Turkey-Greece gas pipeline under construction (a 211 km stretch between Bursa, Karacabey and Ipsala): various locations along the pipeline route and different aspects of the construction process, Turkey, 07/2009 (10 shots)	00:00:39
00:00:59	Drilling platform; "Methania" methane tanker heading towards its destination, Norway, 2002	00:00:09
00:01:08	Hassi R'Mel liquified natural gas (LNG) production site, Algeria, 2004 (2 shots)	00:00:10

00:01:17	Cengechal oil terminal (Baku-Ceyhan), Azerbaijan, 2008 (4 shots)	00:00:19
00:01:36	BCT project with a oil-tanker, Turkey, 10/2008 (2 shots)	00:00:08
00:01:44	Oil and gas extraction, Baku, Azerbaijan, 2008 (10 shots)	00:00:44
00:02:28	PPC (Public Power Corporation) electricity plant with workers, Lavrion, just south of Athens and electric pylons near electricity plant, Greece, 2007 (4 shots)	00:00:17
00:02:45	Various shots showing the SeaGen turbine and its twin rotor blades, Ireland, 2009 (3 shots) The SeaGen tidal turbine is the first tidal turbine of its size in the world, to provide renewable electricity on a commercial scale.	00:00:16
00:03:01	Wind turbine parks in Navarra, Spain; Offshore wind turbines in Denmark, 12/2006 (5 shots)	00:00:19
00:03:21	Electricity networks: high tension lines and men working on it, France, 06/2004	00:00:14
00:03:35	Use of electricity in a supermarket: a computerised system controls the lighting, fridges and, in the evening, when the clients have left, it reduces the lighting and consumes less energy. France.	00:00:19

	use energy, France, 04/2011 (8 shots)	
00:03:54	Various shots showing energy households uses: women using a gas cooker and a microwave, women using electric cooker and turning on heating, consumer lighting a boiler, gas meter, electricity meter (30 shots)	00:02:18
00:06:12	Copyright	00:00:00
