00:28:14	Cutaway	00:00:04
00:28:18	SOUNDBITE by Herman van Rompuy (in ENGLISH) saying that the first decision is that the banks can be recapitalized directly in certain circumstances; the most important condition is that a single supervisory mechanism has to be put in place; the second decision is that the possibility is opened to countries which are well behaving to make use of financial stability instruments (EFSF, ESM) in order to reassure the markets and to regain some stability around the sovereign bonds of EU Member States.	00:00:59

00:30:56	SOUNDBITE by Dalia Grybauskaitė (in ENGLISH) saying that in the future the EU will need very general supervisory bodies to monitor the financial sector and the banking sector more carefully and more responsibly; she hopes that the euro area leaders will be able to find the concrete mechanisms to control not very well behaving banks and to help them; On direct recapitalization of banks: saying that it is not yet decided but at least the chance for recapitalization has been agreed by the Council; On how to you keep the EU citizens on board in supporting these changes: saying that Europe needs to get off the crisis, that's a necessity for everyone.(3 shots)	00:01:05

00:35:16	<p>SOUNDBITE by François Hollande (in FRENCH) saying that there has been progress in important areas; first of all concerning growth; he wanted fast measures to be taken; there have been three steps forward: first of all about bank recapitalization with bank supervision and a schedule, secondly, the possibility for Spain to get facilitation solutions in the short term; and finally the full use of instrument like EFSF and ESM to allow Member States to get necessary protection when it comes to interest rates. (3 shots)</p>	00:01:01
00:36:16	<p>SOUNDBITE by François Hollande (in FRENCH) saying that the Council has defined growth measures - which was the indispensable first step - then acted in the short term, found solutions to create liquidities, protection and facilities, and at the same time found a short and medium term overview on banking supervision.</p>	00:00:42

Romania has applied</p>	00:00:47

	economic growth and employment; Romania has applied all the austerity measures and complies with everything it has negotiated with the international financial institutions; moreover, for Romania it is important that the allocation of European funds remains the same.	
00:38:00	SOUNDBITE by Werner Faymann (in GERMAN) saying that he is very happy that the Council has been able to strengthen the stability mechanism; this decision is important and shows a common will for a stable euro area.	00:00:37
