

**Dr. Roland Schenkel** studied physics at the Technical University in Karlsruhe. After his post-doctorate at the Centre d'Etude Nucléaires (CEA) in Grenoble, France in 1977, he worked at a Company for Reprocessing of Nuclear Fuel in Karlsruhe. From 1979 to 1994 he worked at the Euratom Safeguards Office in Luxembourg inter alia as head for safeguards concepts and strategies and technical support/logistics. In 1994 he joined the Institute for Transuranium Elements (ITU) in Karlsruhe. In 2000 he became Director of the ITU. In June 2002 he moved to Brussels as Deputy Director General of the Joint Research Centre (JRC). Since November 2005 he is Director General of the JRC. Dr. Schenkel has published about 100 papers in the area of basic actinide research, nuclear safeguards and nuclear fuel cycles.

He was rewarded a Doctor honoris causa by the Russian Academy of Science in 2002 and was nominated Honorary Member of the "Alexandru Ioan Cuza" University Senate in Romania in 2004.
