The European Judicial Atlas in Civil Matters is

An informatic tool

• which provides a user-friendly access
• to information relevant for judicial cooperation in civil matters
European Judicial Atlas in Civil Matters

For which purposes can it be used?

Every professional and citizen will easily be able to

- Identify the competent authorities
  with which he can apply for certain purposes, in particular
  - Finding courts with territorial competence,
  - Serving documents,
  - Taking of evidence,
  - Enforcing judgments, and
  - Other issues

- Fill in the various forms
  that exist for application of the different legal instruments by
  transforming them into electronically “intelligent” products
Which Data Does it Contain?

The Atlas contains the following data which will be updated constantly:

• List of all localities of EU Member States

• Names and addresses of all courts competent in civil and commercial matters

• Names and addresses of any other relevant authorities with specific tasks concerning judicial co-operation in civil matters (such as e.g. the Huissiers de Justice)

• Forms to be filled in
Where is the Atlas?

The European Judicial Atlas in Civil Matters is

- Now functioning
- Available in all EU official languages via the internet
