To: COMP ABUSE OF DOMINANCE

Dear Sirs,

Regarding the policy on rebates as set forth in section 162 of the Discussion Paper, and specifically lit. (d), - the dominant company applies the rebate system to a **good part of its buyers** and this system therefore affects, if not most, at least a substantial part of market demand – please clarify how this is connected to the non discrimination principle amongst clients as stated by the court in different rulings.

Yours sincerely,

Maria Cedó
