**COMP/M.4793 - LAFARGE / ETEX / GYPLAC JV**

## **SECTION 1.2**

### **Description of the concentration**

The proposed concentration consists in the formation of a joint venture between Lafarge and Etex in the plaster business in Colombia, which will involve the construction of a plasterboard production line in the Cartagena region.

The Joint Venture will only be active in Colombia (and potentially other neighboring South American countries). As the Joint Venture will have no activities and no exports in Europe, the proposed concentration will have no impact on competition on any part of the EEA territory and there will be no affected markets.
