total:					2.349.574,83

**Note: This table is given for preliminary information purpose only and does not constitute any commitment from the European Commission.** In addition, before signing the individual grant agreements, the Commission's financial services will further examine the selected projects' budget proposals in order to adjust them and to make them fully compatible with the Community's Financial Regulation. As a result of this exercise and in order to take into account possible changes in currency exchange rates, it is likely that the amounts granted for proposals might change slightly and therefore, the figures included in this table are only estimated.
