

# Erasmus+ helping refugees

The European Commission (DG Education and Culture) would like to collect and publish inspiring practices in the fields of school education, vocational education and training and adult learning on integration measures targeted at refugees.

Deadline: 23 November 2015

## Contact information

---

First and last name

This information is not mandatory, can be used for later feedback.

Email address

This information is not mandatory, can be used for later feedback.

For which organisation do you work?

This information is not mandatory, can be used for later feedback.

Please select the sector of activities

- VET
- School Education
- Adult Education

## Questionnaire

---

Which challenges that have come up in the context of the refugee crisis are (or should be) addressed by institutions and other actors in your field?

Please describe one or several good practice example(s) from your organisation – or in which your organisation is involved – that address one or more of the above issues and that you think could these be scaled up into European practices. Please also indicate the timeframe and a web link if relevant.

How could the European Commission contribute to initiatives that address education and training challenges related to the refugee crisis?

- Give more priority to the relevant topics in the calls of Erasmus+
- Disseminate information about good practices
- Provide networking opportunities for projects/organisations
- Other

If other, please specify

Please share any further ideas you may have on how organisations in your field and/or the European Commission can support refugees.
