Information Day of the

European Commission's Joint Research Centre

European research for European Union policies.
The Joint Research Centre and Portugal: cooperation
in research

Lisbon • 30 November 2007

<http://www.jrc.ec.europa.eu/infoday-portugal-2007>

The mission of the JRC

The mission of the Joint Research Centre is to provide
customer-driven scientific and technical support for the
conception, development, implementation and monitoring
of European Union policies. As a service of the European
Commission, the Joint Research Centre functions as a
reference centre of science and technology for the Union.
Close to the policy-making process, it serves the common
interest of the Member States, while being independent
of special interests, whether private or national.

MCTES MINISTÉRIO DA CIÊNCIA, TECNOLOGIA E ENSINO SUPERIOR

The JRC

The Joint Research Centre (JRC) is a Directorate General of the European Commission and has 7 scientific institutes spread over 5 sites in Belgium, Germany, Italy, The Netherlands and Spain.

The JRC acts, in collaboration with its European partners as the scientific and technological reference centre for the European Union in diverse areas like environment, consumer protection and nuclear energy as well as agriculture, fisheries and internal and external security. The JRC also gives support to community policies like research, education, external relations, enlargement of the EU and support for development in third countries.

The MCTES

The Ministry of Science, Technology and Higher Education (MCTES) is responsible for the Portuguese network of FP7 National Contact Points and is active in the following areas:

- Coordination and dissemination of actions aiming at promoting the international cooperation on science and technology inherent to the membership of Portugal in the EU;
- Coordination of actions in the field of cooperation associated with the international organisations which Portugal integrates;
- Dissemination of FP7 in all its actions, conception and organisation of events, active search of partners, follow up and monitoring of the participation of Portuguese partners in the various framework programmes.
