

Hüseyin GÜLER

Hüseyin Güler is a PhD candidate on Science and Technology Policy Studies at Middle East Technical University. Mr. Güler graduated from Marmara University, Department of Industrial Engineering, and holds MBA degrees from Uludağ University and Kavrakoğlu Management Institute.

Mr. Güler started his professional life in TURKCELL (a leading GSM operator of Turkey) Sales Development Department where he developed TURKCELL's first contractual subscription application in 2002 that aimed to increase the loyalty of the most valuable customers. The application is still widely used in 2009. He undertook the responsibility of new product development studies with suppliers of several face lifting FIAT Doblo projects in TOFAŞ (a leading light commercial vehicle producer of Turkey). In the year 2003, he merited the TOFAŞ Purchasing Directorate Award, while he had the responsibility of coordination of the R&D phase in the project oriented to the Middle East Market.

Mr. Güler joined TÜBİTAK in June 2004. He served as the National Coordinator of Turkey for EU Framework Programmes (2006-2009). He was a member of the Turkish Delegation during the screening process (2005-2006) between the Government of Turkey and the EU Commission, within the scope of the Science and Research Chapter. Mr. Güler undertook studies for TURBO-ppp (the Turkish R&D Liaison Office) in Brussels (2004-2009), represents Turkey in international meetings (including CREST, the JRC's Board of Governors, DG INFSO ICT Research Directors) and takes part in university- and industry-oriented national events as a trainer or speaker. Since May 2009, Hüseyin Güler serves as Head of Science, Technology, Innovation Policies and Strategies Unit at TÜBİTAK.
