

Olivier MATTELAER

- minimum number of EU countries signatories must come from 66% of the number of States in EU
- minimum number of signatories per country
0.05% of the population of this country (in age of vote)
- minimum age of signatories
they can sign if they can vote for the parlement (potentially state dependant)
- form and wording of a citizens' initiative
We should authorize electronic signing
- rules on collecting, verifying and authenticating signatures
This shouldn't be difficult to participate to those petitions.
But you can force the signing to be done on a official UE cluster (dedicated for that).
Then you can force captcha, mail confirmation, control with IP adress,...
- time limit for collecting signatures
one month
- how to officially register initiatives
should have a official UE cluster, everyone could open an initiative in a few clics without administrative procedure
- rules on transparency and funding (applicable to organisers)
I don't know
- possible time limit for Commission response
one month maximum, the Commission should be trully reactive
