ICT Call 11, Objective 3.1 Nanoelectronics

Published by Newsroom Editor on 01/03/2013

If you want to send a research proposal for Call 11, you have to apply until 16 April 2013. A detailed description of what we are looking for is available in our Work Programme

(<http://cordis.europa.eu/fp7/ict/docs/ict-wp2013-10-7-2013.pdf> ^[1]) Below is an important clarification for concerning text in the work program: Important for proposers to ICT Call 11, Objective 3.1 Nanoelectronics Clarification concerning text in the work program: The text "16 nm and below" in the first target outcome: a) Integration of advanced nano-electronics devices and technologies (16nm and below) only applies to the first bullet (New solutions to boost performance in More Moore. This includes Ge, III-V compound semiconductors, graphene, CNT or nanowires.).
