### **Room G (Autoworld, ground floor), 17/06/2011 (09:30-13:00)**

This workshop will explore the strengths, weaknesses and needs of the European digital entrepreneurs and SMEs as regards access to financing (notably Venture Capital) and development of European cooperation platforms.

To allow entrepreneurs to grow into European dimension and get in touch with investors, regulators and other possible partners, Europe needs to create systems to strengthen the competitive position of EU companies and boost entrepreneurship.

Within the context of Digital Agenda [action 54](#) [1] and [action 55](#) [2] and the [Digital Agenda "Big Idea" on digital entrepreneurs](#) [3], this session will build a common understanding between public and private actors about how to define an efficient framework for financing as well as for solid cooperation between entrepreneurs, all industry sectors, financing providers and policy makers.
