

Room C (Autoworld, 1st floor), 17/06/2011 (9h30-13h00)

The objective of this workshop is to define the international dimension of the Digital Agenda and how Europe should actively engage with other nations and trading blocs.

In a world of global networks and cross border services this workshop will explore how the Digital Agenda for Europe can contribute to ensuring full and fair access to the global marketplace. This can include problems arising from divergent regulatory provisions or enforcement practices.
