

The signature of a Framework Agreement with DG ECHO should not be interpreted by third parties, in particular by other donors, as any kind of certification. While the signature of an agreement for the receipt of an EU contribution is conditional on compliance with a number of eligibility and suitability criteria, the assessment carried out to this extent by the Commission is solely aimed at assuring the Commission that its own rules and principles are respected. It is also emphasized that, even after the signature of a Framework Agreement, DG ECHO carries out additional assessments and verifications, and it may put in place risk control measures that are not made public and that may be subject to disclosure restrictions. Suspension of partners may, for instance, not be mentioned on the list. The Commission thus declines any responsibility regarding loss or damage based upon or resulting from reliance by third parties on this list.
