

The signature of a Framework Partnership Agreement (FPA) with DG ECHO should not be interpreted by third parties, in particular by other donors, as any kind of certification. While the signature of the FPA by NGOs is conditional on compliance with a number of eligibility and suitability criteria, the assessment carried out to this extent by DG ECHO is solely aimed at assuring DG ECHO that its own rules and principles are respected. It is also emphasized that, even after the signature of an FPA, DG ECHO carries out additional assessments and audits, and it may put in place risk control measures that are not made public and that may be subject to disclosure restrictions. DG ECHO thus declines any responsibility regarding loss or damage based upon or resulting from reliance by third parties on the partners' status of NGOs with DG ECHO.
