Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**on the strengthening of economic and budgetary surveillance of Member States
experiencing or threatened with serious difficulties with respect to their financial
stability in the euro area**

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on the strengthening of economic and budgetary surveillance of Member States experiencing or threatened with serious difficulties with respect to their financial stability in the euro area

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 136, in combination with Article 121(6) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Central Bank,

After transmission of the draft legislative act to the national Parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The unprecedented global crisis that has hit the world over the last three years has seriously damaged economic growth and financial stability and provoked a strong deterioration in the government deficit and debt position of the Member States, leading a number of them to seek financial assistance outside the framework of the Union.
- (2) The full consistency between the Union multilateral surveillance framework established by the Treaty and the possible policy conditions attached to this financial assistance should be enshrined in Union law. The economic and financial integration of the Member States whose currency is the euro calls for a reinforced surveillance to prevent a contagion from a Member State experiencing difficulties with respect to its financial stability to the rest of the euro area.
- (3) The intensity of the economic and fiscal surveillance should be commensurate to the severity of the financial difficulties encountered and should take due account of the nature of the financial assistance received, which may range from a mere precautionary support based on eligibility conditions up to a full macro-economic adjustment programme involving strict policy conditionality.
- (4) A Member State whose currency is the euro should be subject to enhanced surveillance when it is experiencing - or at risk of experiencing - severe financial disturbance, with a view to ensuring its swift return to a normal situation and to protecting the other euro area Member States against possible negative spill over

effects. This enhanced surveillance should include a wider access to the information needed for a close monitoring of the economic, fiscal and financial situation and a regular reporting to the Economic and Financial Committee (EFC) or to any sub-committee the latter may designate for that purpose. The same modalities of surveillance should apply to Member States requesting precautionary assistance from the European Financial Stability Facility (EFSF), the European Stability Mechanism (ESM) the International Monetary Fund (IMF) or another international financial institution.

- (5) The surveillance of the economic and fiscal situation should be strongly reinforced for Member States under macro-economic adjustment programme. Because of the comprehensive nature of the latter, the other processes of economic and fiscal surveillance should be suspended for the duration of the macro-economic adjustment programme, with a view to avoiding a duplication of reporting obligations.
- (6) Rules should be provided in order to enhance the dialogue between the Union institutions, in particular the European Parliament, the Council and the Commission, and to ensure greater transparency and accountability.
- (7) A decision regarding the non-compliance of a Member State with its adjustment programme would also entail a suspension of payments or commitments of Union funds as provided by Article 21(6) of Regulation (EU) No XXX laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund covered by the common strategic framework and laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1083/2006,

HAVE ADOPTED THIS REGULATION:

Article 1
Subject matter and scope

1. This Regulation sets out provisions for strengthening the economic and budgetary surveillance of Member States experiencing or threatened with serious difficulties with respect to their financial stability and/or that receive or may receive financial assistance from one or several other States, the European Financial Stability Facility (EFSF), the European Financial Stability Mechanism (EFSM), the European Stability Mechanism (ESM) or other International Financial Institutions (IFI), such as the International Monetary Fund (IMF).
2. This Regulation shall apply to Member States whose currency is the euro.

Article 2
Member States under enhanced surveillance

1. The Commission may decide to make a Member State experiencing severe difficulties with regard to its financial stability subject to enhanced surveillance. The

Member State concerned shall be given the possibility to express its views beforehand. The Commission shall decide every six months whether to prolong the enhanced surveillance.

2. The Commission shall decide to make a Member State receiving a financial assistance on a precautionary basis from one or several other States, the EFSF, the ESM or any other International Financial Institution, such as the IMF, subject to enhanced surveillance. The Commission shall establish a list of the precautionary financial assistance instruments concerned and keep it updated to take into account possible changes in the financial support policy of the EFSF, ESM or of any other relevant International Financial Institution.
3. Paragraph 2 shall not apply to a Member State receiving a financial assistance on a precautionary basis in the form of a credit line which is not conditioned to the adoption of new policy measures by the concerned Member State, as long as the credit line is not drawn.

Article 3 *Enhanced surveillance*

1. A Member State under enhanced surveillance shall, in consultation and cooperation with the Commission, acting in liaison with the European Central Bank (ECB), adopt measures aimed at addressing the sources or potential sources of difficulties.
2. The closer monitoring of the fiscal situation laid down in Article 7, paragraphs 2, 3 and 6, of Regulation (EU) No XXX of the European Parliament and of the Council shall apply to a Member State under enhanced surveillance, irrespective of the existence of an excessive deficit. The report in accordance with paragraph 3 of this Article shall be submitted on a quarterly basis.
3. On a request from the Commission, the Member State under enhanced surveillance shall:
 - (a) communicate to the Commission, the ECB and the European Banking Authority (EBA) at the requested frequency disaggregated information on the financial situation of the financial institutions which are under the surveillance of its national supervisors;
 - (b) carry out, under the supervision of the European Banking Authority, stress test exercises or sensitivity analyses as necessary to assess the resilience of the banking sector to various macroeconomic and financial shocks, as specified by the Commission and the ECB, and share the detailed results with them;
 - (c) be subject to regular assessments of its supervisory capacities over the banking sector in the framework of specific peer review carried out by the EBA;
 - (d) communicate any information needed for the monitoring of macro-imbalances established by Regulation No XXX of the European Parliament and of the Council on the prevention and correction of macroeconomic imbalances.

4. The Commission shall conduct, in liaison with the ECB, regular review missions in the Member State under surveillance to verify the progresses made in the implementation of the measures mentioned in paragraph 1, 2 and 3. It shall communicate every quarter its findings to the Economic and Financial Committee (EFC) - or to any subcommittee the latter may designate for that purpose - and assess notably whether further measures are needed. These review missions shall replace the onsite monitoring foreseen in Article 10a(2) of Regulation (EC) No 1467/97.
5. Where it is concluded - on the basis of the assessment foreseen in paragraph 4 - that further measures are needed and the financial situation of the Member State concerned has significant adverse effects on the financial stability of the euro area, the Council, acting by qualified majority on a proposal from the Commission, may recommend to the Member State concerned to seek financial assistance and to prepare a macro-economic adjustment programme. The Council may decide to make this recommendation public.
6. Where a recommendation under paragraph 5 is made public:
 - (a) the relevant Committee of the European Parliament may invite representatives of the Member State concerned to participate to an exchange of views;
 - (b) representatives of the Commission may be invited by the parliament of the Member State concerned to participate to an exchange of views.

Article 4

Information on envisaged financial assistance requests

A Member State wishing to obtain financial assistance from one or several other States, the EFSF, the ESM, the International Monetary Fund (IMF) or another institution outside of the Union framework shall immediately inform the Council, the Commission and the ECB of its intention. The EFC, or any subcommittee the latter may designate for that purpose, shall hold a discussion on this envisaged request, after having received an assessment from the Commission.

Article 5

Assessment of the sustainability of the government debt

Where financial assistance is sought from the EFSF or the ESM, the Commission shall prepare – in liaison with the ECB and wherever possible, the IMF - an analysis of the sustainability of the government debt of the Member State concerned, including the Member State's ability to repay the envisaged financial assistance, and forward it to the EFC or to any subcommittee the latter may designate for that purpose.

Article 6

Macro-economic adjustment programme

1. A Member State receiving financial assistance from one or several other States, the IMF, the EFSF or the ESM shall prepare in agreement with the Commission - acting in liaison with the ECB - a draft adjustment programme aimed at re-establishing a

sound and sustainable economic and financial situation and restoring its capacity to finance itself fully on the financial markets. The draft adjustment programme shall take due account of the current recommendations addressed to the Member State concerned under Articles 121, 126 and/or 148 of the Treaty- and its actions to comply with them - while aiming at broadening, strengthening and deepening the required policy measures.

2. The Council, acting by qualified majority on a proposal from the Commission, shall approve the adjustment programme.
3. The Commission, in liaison with the ECB, shall monitor the progress made in the implementation of the adjustment programme and inform every three months the EFC or any subcommittee the latter may designate for that purpose. The Member State concerned shall give the Commission its full cooperation. It shall in particular provide to the Commission all the information that the latter deems necessary for the monitoring of the programme. Article 3(3) shall apply.
4. The Commission - in liaison with the ECB - shall examine with the Member State concerned the changes that may be needed to its adjustment programme. The Council, acting by a qualified majority on a proposal from the Commission, shall decide on any change to be made to the adjustment programme.
5. If the monitoring referred to in paragraph 3 highlights significant deviations from the macro-economic adjustment programme, the Council, acting by qualified majority on a proposal from the Commission, may decide that the Member State concerned does not comply with the policy requirements contained in the adjustment programme.
6. A Member State subject to an adjustment programme experiencing insufficient administrative capacity or significant problems in the implementation of its adjustment programme shall seek technical assistance from the Commission.
7. The relevant Committee of the European Parliament may invite representatives of the Member State concerned to participate to an exchange of views on the progress made in the implementation of the adjustment programme.
8. Representatives of the Commission may be invited by the Parliament of the Member State concerned to participate to an exchange of views on the progress made in the implementation of the adjustment programme.

Article 7

If the Member State concerned is subject to notice under Article 126(9) of the Treaty, the adjustment programme foreseen by Article 6(3) of this Regulation shall also be deemed to replace the indications on measures conducive to those targets foreseen in the notice in accordance with Article 5(1) of Regulation (EC) No 1467/97.
- (c) The monitoring provided for by Article 6(3) of this Regulation shall be deemed to replace the monitoring provided for by Article 10(1) and Article 10a of Council Regulation (EC) No 1467/97 and the monitoring underlying any decision provided for by Article 4(2) and 6(2) of Regulation (EC) No 1467/97.

The implementation of Regulation (EU) No XXX on the prevention and correction of macroeconomic imbalances shall be suspended for the Member States subject to a macro-economic adjustment programme approved by the Council in accordance with Article 6(2) of this Regulation. This suspension shall be applicable for the duration of the macro-economic adjustment programme.

Article 9

Consistency with the European Semester for economic policy coordination

The monitoring provided for by Article 6(3) of this Regulation shall be deemed to replace the monitoring and assessment of the European Semester for economic policy coordination provided for by Article 2a of Regulation (EC) No 1466/97 on the strengthening of the surveillance of budgetary positions and coordination of economic policies.
