Methodology

Population & frame list	Population (universe)	Enterprise with legal status, employed more than 20 employees.
	Survey sampling frame	List of companies obtained from Opten Ltd.
	Size of frame list	Ca. 10,400 enterprises
	Weighted frame coverage	
	Characteristics	VAT number, address, postal address, NACE code, number of employees, turnover category.
	Frame list update	Last update was in February 2015.
	Sectors and/or categories currently covered	Manufacturing industry.
Sampling & accuracy	Sampling method	Random sampling. The population is stratified by the number of employees, then the survey's target sample is chosen from the list of companies obtained from the Central Statistical Office of Hungary. Once a year, usually in September, the "old" sample is updated: 25% of the sample companies is thrown out, and the same number of companies is placed instead so that the proportions by employee number – i.e. the original stratification – remain unchanged.
	Sample size (number of contacts)	1500
	Weighted sample coverage	10% (In terms of employment)
	Sampling error	
	Response rate	25%
	Treatment of non-response	
	Weighting scheme	No weighting.
Data collection	Periodicity	Twice a year in March and November.
	Survey method	Mail questionnaires, online surveying.
	Fieldwork period	1st to 15th of March and November
	Remarks methodology	

Last update	24/06/2016
