Recommendation for a

COUNCIL DECISION

amending Council Decision 2010/320/EU of 10 May 2010 addressed to Greece with a view to reinforcing and deepening the fiscal surveillance and giving notice to take measures for the deficit reduction judged necessary to remedy the situation of excessive deficit

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the functioning of the European Union (TFEU), and in particular Article 126 (9) and Article 136 thereof,

Having regard to the recommendation from the Commission,

Whereas:

(1) Article 136(1) (a) TFEU foresees the possibility of adopting measures specific to the Member States whose currency is the euro with a view to strengthening the coordination and surveillance of their budgetary discipline.

(2) Article 126 establishes that Member States are to avoid excessive government deficits and sets out the excessive deficit procedure to that effect. The Stability and Growth Pact, which in its corrective arm implements the excessive deficit procedure, provides the framework supporting government policies for a prompt return to sound budgetary positions taking account of the economic situation.

(3) On 27 April 2009, the Council decided, in accordance with Article 104(6) of the Treaty establishing the European Community that an excessive deficit existed in Greece.

(4) On 10 May 2010, the Council adopted a Decision addressed to Greece under Article 126 (9) and Article 136 with a view to reinforcing and deepening the fiscal surveillance and giving notice to take measures for the deficit reduction judged necessary to remedy the situation of excessive deficit at the latest by the deadline of 2014.¹ The Council established the following path for the deficit correction: government deficits not exceeding 8% of GDP in 2010, 7.6% of GDP in 2011, 6.5% of GDP in 2012, 4.9% of GDP in 2013, and 2.6% of GDP in 2014.

(5) According to the forecast available at the time the Council adopted the aforesaid Decision, real GDP was expected to contract by 4% in 2010 and 2.6 % in 2011, and recover afterwards, with growth rates of 1.1% in 2012, and 2.1% in 2013 and 2014. GDP deflator was expected to be 1.2%, -0.5%, 1.0%, 0.7% and 1.0% from 2010 to 2014, respectively. Given

economic developments in the meantime, the aforementioned real GDP growth rates remain a central scenario with balanced upside and downside risks, while the deflator is now forecast to be substantially higher for the initial years: 3½ %, 1¼% and ½% from 2010 to 2012.

(6) Greece has made good progress in the implementation of the measures required by the Council Decision. In several areas, measures have been taken in advance of the requirements. This has been the case, in particular, in the field of pension reform, reform of local administration and publication of monthly data on state revenue and expenditure. However, a number of adjustments are still necessary in each of these areas.

(7) On 6 August 2010, Greece submitted to the Council and the Commission a report outlining the policy measures taken to comply with Decision 2010/320/EU. The Commission assessed the report and concluded that Greece is satisfactorily complying with the Council Decision of 10 May 2010.²

(8) In the light of the above considerations, it appears appropriate to revise the Council Decision in a number of respects, while keeping unchanged the deadline for the correction of the excessive deficit and the respective adjustment path for the deficit-to-GDP ratios and government debt.

HAS ADOPTED THIS DECISION:
