COM(2014) 436 final

Recommendation for a

COUNCIL DECISION

**abrogating Decision 2010/284/EU on the existence of an excessive deficit in the Czech
Republic**

Recommendation for a

COUNCIL DECISION

abrogating Decision 2010/284/EU on the existence of an excessive deficit in the Czech Republic

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union (TFEU), and in particular Article 126(12) thereof,

Having regard to the recommendation from the Commission,

Whereas:

- (1) By Council Decision 2010/284/EU of 2 December 2009¹, following a recommendation from the Commission, it was decided that an excessive deficit existed in the Czech Republic. The Council noted that the general government deficit in the Czech Republic was planned to reach 6.6% of GDP in 2009, thus above the 3% of GDP Treaty reference value while the general government gross debt was expected to reach 35.5% of GDP in 2009, well below the 60 % of GDP reference value².
- (2) On 2 December 2009, in accordance with Article 126(7) TFEU and Article 3(4) of Council Regulation (EC) No 1467/97 of 7 July 1997 on speeding up and clarifying the implementation of the excessive deficit procedure³, the Council, based on a recommendation from the Commission, addressed a recommendation to the Czech Republic with a view to bringing the excessive deficit situation to an end by 2013 at the latest. The recommendation was made public.
- (3) In accordance with Article 4 of the Protocol on the excessive deficit procedure annexed to the Treaties, the Commission provides the data for the implementation of the procedure. As part of the application of this Protocol, Member States are to notify data on government deficits and debt and other associated variables twice a year, namely before 1 April and before 1 October, in accordance with Article 3 of Council Regulation (EC) No 479/2009 of 25 May 2009 on the application of the Protocol on the excessive deficit procedure annexed to the Treaty establishing the European Community⁴.
- (4) When considering whether a decision on the existence of an excessive deficit should be abrogated, the Council should take a decision on the basis of notified data. Moreover, a decision on the existence of an excessive deficit should be abrogated only

¹ OJ L 125, 21.5.2010, p. 36.

² The general government deficit and debt for 2009 were subsequently revised to 5.8% and 34.6% of GDP respectively.

³ OJ L 209, 2.8.1997, p. 6.

⁴ OJ L 145, 10.6.2009, p. 1.

if the Commission forecasts indicate that the deficit will not exceed the 3% of GDP Treaty reference value over the forecast horizon⁵.

- (5) Based on data provided by the Commission (Eurostat) in accordance with Article 14 of Regulation (EC) No 479/2009 following the notification by the Czech Republic before 1 April 2014 and on the Commission 2014 spring forecast, the following conclusions are warranted:
- Having peaked at 5.8% of GDP in 2009, the general government deficit in the Czech Republic was brought down and reached 1.5% of GDP in 2013, which was the deadline set by the Council. This improvement was driven by consolidation both on the expenditure and the revenue side, in particular by increases in indirect taxation and cuts in public investment.
 - The 2014 convergence programme of the Czech Republic projects the general government deficit to increase to 1.8% of GDP in 2014 and to 2.3% of GDP in 2015, while the Commission 2014 spring forecast projects the general government deficit to reach 1.9% of GDP in 2014 and 2.4% of GDP in 2015, based on a no-policy-change assumption. Thus, the deficit is set to remain below the reference value of 3% of GDP over the forecast horizon.
 - The structural balance, i.e. the general government balance adjusted for the economic cycle and net of one-off and other temporary measures, improved on average by 1.4% of GDP each year between 2009 and 2013. It is forecast to deteriorate by 1% of GDP in 2014 (to -1.1% of GDP) and by further 0.8% of GDP in 2015, based on a no-policy-change assumption.
 - The debt-to-GDP ratio increased by 11.5 pps between 2009 and 2013 to 46%. The Commission 2014 spring forecast projects the general government gross debt to fall temporarily to 44.4% of GDP in 2014 and to increase to 45.8% of GDP in 2015.
- (6) The Council recalls that, starting from 2014, which is the year following the correction of the excessive deficit, the Czech Republic is subject to the preventive arm of the Stability and Growth Pact and should maintain its structural balance at or above its medium-term objective.
- (7) In accordance with Article 126(12) of the Treaty, a Council Decision on the existence of an excessive deficit is to be abrogated when the excessive deficit in the Member State concerned has, in the view of the Council, been corrected.
- (8) In the view of the Council, the excessive deficit in the Czech Republic has been corrected and Decision 2010/284/EU should therefore be abrogated,

HAS ADOPTED THIS DECISION:

Article 1

From an overall assessment it follows that the excessive deficit situation in the Czech Republic has been corrected.

⁵ In line with the “Specifications on the implementation of the Stability and Growth Pact and Guidelines on the format and content of Stability and Convergence Programmes”, of 3 September 2012. See: http://ec.europa.eu/economy_finance/economic_governance/sgp/pdf/coc/code_of_conduct_en.pdf

Article 2

Decision 2010/284/EU is hereby abrogated.

Article 3

This Decision is addressed to the Czech Republic.
