2010 Economic and Fiscal Programmes of potential candidate countries: EU Commission's assessments

**By European Commission
Directorate-General for Economic and Financial Affairs**

The document contains the EU Commission's assessments of the 2010 Economic and Fiscal Programmes of the currently 4 potential candidate countries: Albania, Bosnia and Herzegovina, Montenegro and Serbia. The programmes are precursors of similar programmes, which EU Member states are supposed to submit. In their programmes, countries are invited to present a short description of recent economic developments, a medium macroeconomic framework, a chapter presenting the medium-term fiscal programme and an overview of intended structural reforms. The EU Commission assesses, whether the documents respect the required format and information content and whether the programme is plausible and in line with the country's accession perspective.
