

PRICE AND COST COMPETITIVENESS

**EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR ECONOMIC AND FINANCIAL AFFAIRS**

ECFIN/E-4

Third quarter 2012

**Quarterly data on price and cost competitiveness
of the European Union and its Member States**

ECFIN/E4/2012/

TABLES AND CHARTS BY COUNTRY

The tables and charts on **Pages 1 to 78** present nominal and real effective exchange rates of the currencies of the European Union Member States, as well as Japan, the United States, Switzerland, Norway, Turkey, Canada, Australia, New Zealand, Mexico, Russia, China, Brazil, Hong Kong and Korea.

Aggregate measures for the European Union as a whole (EU27) and the group of countries participating in the euro area (EA17) are presented as well. Each country (or country group) is compared with the euro area, the EU, (the rest of) 36 industrial countries (the 27 EU countries, the United States, Japan, Mexico, Canada, Australia, New Zealand, Switzerland, Norway and Turkey) and –data permitting– with a larger group of 41 countries (the 36 industrial countries, Russia, China, Brazil, Hong Kong and Korea).

The tables on **Pages 79 to 90** present cross-national tables (vs. IC36) of nominal and real effective exchange rates of the currencies of the EU, the USA and Japan as well as aggregate measures for the EU and the euro area. Each cross-national table of real effective exchange rates is based on a single price or cost deflator. These tables aim to facilitate a comparison of developments in the countries. The final tables show the latest double export weight matrices that were used to calculate effective exchange rates.
