Subject: Consultation - European Credit System for Vocational Education and Training
Importance: High

Sent on behalf of Ros Boyne

I am writing with reference to the consultation document dated October 2006, concerning the European Credit system for Vocational Education and Training.

On behalf of UCE Birmingham, we would like to offer our full support to the ideas and principles incorporated within the proposed European Credit system. We would hope that you are able to secure the involvement of professional bodies in its future development.

We look forward to receiving further information about the scheme in the near future.

Yours faithfully,

Ros Boyne
