(i) The concept of "participations" does not coincide with "HEIs". In fact the same HEI can participate more than once.

(ii) "Partnerships" action only started in 2007, that's why the period covered is different from the other columns.

(iii) Since most of the HEIs are the same in EM joint masters and doctorates and in EM partnerships, it does not seem appropriate to sum up the figures in the first two columns.

(iv) The concept of "mobilities" does not coincide with "individuals". In fact in certain cases the same student goes to a country twice during his/her mobility and this is calculated as two different mobilities.

How to apply for funding:

Duration of study period is: 1-2 academic years for masters, and 3 years for doctorates.

Duration of partnerships and related scholarships period is: 3 - 36 months.

- Higher education institutions and organisations active in the field of higher education have to apply centrally to the Education, Audiovisual and Culture Executive Agency in accordance with the application conditions and timetable defined in the Programme Guide and the relevant Call for Proposals.

- Students, doctoral candidates, teachers, researchers and other academic staff should address their applications directly to the selected Erasmus Mundus masters and doctoral programmes (Action 1) and to the selected Erasmus Mundus partnerships (Action 2), in accordance with the application conditions defined by the selected consortium/partnership.
