| Objectives and description of the action |
|---|

The action **Transnational Placements in Enterprises or Training Institutions** of the **Leonardo da Vinci** sectoral programme aims at the support of transnational mobility of persons who already reached a degree of vocational training and/or education and are available on the labour market.

The general objectives of this mobility action within Leonardo da Vinci sectoral programme are:

- To support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development
- To enhance the attractiveness of vocational education and training and mobility for individuals and to facilitate the mobility of working trainees

The mobility is considered as a period of vocational training and/or work experience undertaken by an individual beneficiary in a partner organisation in another participating country. The individual beneficiaries are persons having reached a degree of vocational training and/or studies (i.e. including graduates) and which are available on the labour market, employed or unemployed. Individual beneficiaries will receive their grants within a mobility **project** organised by a sending institution. They cannot directly apply for a grant to National Agencies.

Within the project, co-operation exists between training institutions and/or enterprises. The partners of this cooperation have to ensure that the criteria contained in the [Quality Commitment](#) are met:

- Clear description of objectives, content and duration of the training period abroad
- The [placement](#) is an integral part of the vocational training course
- Clear match between the [training needs](#) of the individual beneficiary, his training curriculum and the content of the placement (traineeship)
- Individual, linguistic and cultural preparation of the individual beneficiaries is ensured
- Pedagogical monitoring of the individual beneficiaries is ensured ([tutoring](#) and [mentoring](#) in cooperation between sending and host organisation)
- [Validation of the competences](#) acquired by the individual beneficiary and evaluation of the general outcome within the specific vocational training field (use of Europass Mobility)
- Logistic support to individual beneficiary (travel, accommodation, host organisation)
- [Dissemination](#) activities are foreseen
