

## Title of the project

### SDPROMO II / Promoting European Education in Sustainable Development

**Duration: 25 months**

## Project description

The overall project objectives:

- to promote European Education in Sustainable Development (SD)
- to facilitate introduction of Sustainable Development concept in Higher Education within the European Union and beyond its borders
- to encourage and enable excellent students from all over the world to obtain qualifications in SD in the European Union
- to facilitate academic mobility between European Union and third-country institutions and to enhance mutual awareness and understanding

The targeted regions and countries of this project: Africa, Caribbean, Gulf Countries Council (GCC), Middle East and Northern Africa (MEDA) and South-East Asia.

The project goals will be reached by the following activities:

- Justification of necessity in SD education in targeted regions
- Survey on best experiences in SD education
- Collection, updating and analysis of information on available Master and PhD in European Union
- Development of an Information and Communication Platform [www.sdpromo.info](http://www.sdpromo.info) to enhance visibility of higher education in SD in the European Union for students from the third countries
- Preparation and publishing of informational materials
- Conferences "Sustainable Development in Higher Education" will be conducted in each region based at local partner Universities (5 events – Ethiopia, Suriname, United Arab Emirates, Egypt and Malaysia)
- Extending the Network for promotion SD education and creation of regional network centres at 5 partner institutions: Addis Ababa University (Ethiopia), Anton de Kom University of Suriname, University of Sharjah (United Arab Emirates), SEKEM Development Foundation (Egypt), University of Science Malaysia
